

2025

January/February Cycle

Information Bulletin

for

Accreditation with National Board of Examinations in Medical Sciences

Course / Programme	Nature of Application
Diplomate of National Board (DNB)	: Fresh & Renewal
Doctorate of National Board (DrNB)	: Fresh & Renewal
Fellow of National Board (FNB)	: Fresh & Renewal

LIST OF ABBREVIATIONS

NBEMS	:	NATIONAL BOARD OF EXAMINATIONS IN MEDICAL SCEINCES
DNB	:	DIPLOMATE OF NATIONAL BOARD
DrNB	:	DOCTORATE OF NATIONAL BOARD
FNB	:	FELLOW OF NATIONAL BOARD
FNB-PD	:	FELLOW OF NATIONAL BOARD POST DOCTORAL
MOHFW	:	MINISTRY OF HEATH & FAMILY WELFARE
NMC	:	NATIONAL MEDICAL COMMISSION
MCI	:	MEDICAL COUNCIL OF INDIA
MoU	:	MEMORANDUM OF UNDERSTANDING
OAAP	:	ONLINE ACCREDITATION APPLICATION PORTAL
SPoC	:	SINGLE POINT OF CONTACT
SPCB	:	STATE POLLUTION CONTROL BOARD

IMPORTANT

➤ Applications are invited for:

- Fresh and Renewal of accreditation for Super Specialty courses (DrNB).
- Fresh and Renewal of accreditation for Fellowship courses (FNB).
- Fresh and Renewal of accreditation for Broad Specialty courses (DNB).

➤ Hospitals/Institutes accredited till June 2025 for Super specialty courses and Fellowship courses may apply for the renewal of accreditation.

➤ Hospitals/Institutes accredited till December 2025 for Broad specialty courses including Direct 6 years courses may also apply for renewal of accreditation.

INDEX

Important Dates	4
1. Introduction	5
2. DNB, DrNB & FNB Courses	(6-8)
A. Broad Specialty Courses	6-7
B. Super Specialty Courses	7
C. Super Specialty Direct 6-year Courses	7
D. Fellowship Courses	8
3. Applying for NBEMS Accreditation	(9-23)
A. General Instructions	9-11
B. Online Accreditation Application Portal (OAAP)	11-12
C. Application Compilation & Submission	12-13
D. Accreditation Fee	13-15
E. Processing of The Application	16-18
F. Joint Accreditation Programme	18-23
4. Minimum Accreditation Criteria	(24-106)
(I). The Applicant Hospital	
A. Clinical Establishment	24-25
B. Bed strength in the applicant hospital	25-27
(II). Requirements in the applicant department	
A. Beds in the applicant department/specialty of the hospital	27-50
B. Faculty in the applicant department/specialty	51-79
C. Patient Load in the applicant department/specialty	79-100
D. Grant of Seats	100-102
E. Physical Facilities & Supportive Services	102-103
F. Teaching & Training Facilities	103-106
G. Requirement of Academic Department	106
5. Guidelines for Accredited Hospital	(107-113)
A. Rotational Posting Guidelines	107-108
B. Fee to be paid by the NBEMS trainees	108-109
C. Stipend Guidelines	109-112
D. Functionaries of the applicant hospital	113
E. Grievance Redressal Committee (Accredited Hospital)	113-114
6. District DNB/DrNB Programme at State Government owned District/ General/ Civil hospitals	115-116
7. Communication Protocol for Accreditation Purposes	117-118

8. Sponsored Seats	119
Annexure I: Sample Copy of Agreement for Accreditation with National Board of Examinations in Medical Sciences	120
Annexure II: Public Notice – Payment of Annual Course Fee by NBEMS trainees	121-124

IMPORTANT DATES

TABLE-1

Start Date for submission of Online Application form	07-02-2025
Last Date for submission of Online Application form including payment of fees	30-05-2025
Last Date for receipt of Hard Copy (Spiral Bind) (Both Main and Specialty Specific Application separately) at NBEMS Office.	16-06-2025

1. Introduction

National Board of Examinations in Medical Sciences (NBEMS) was established in 1975 by the Government of India with the prime objective of improving the quality of Medical Education by establishing high and uniform standards of postgraduate examinations in modern medicine on All India basis. NBEMS conducts post graduate and post-doctoral examinations in approved disciplines leading to the award of Diplomate of National Board (DNB), Doctorate of National Board (DrNB) and Fellow of National Board (FNB).

The setting up of a National Body to conduct post graduate medical examination and training has provided common standards and mechanism of evaluation of minimum level of desired knowledge and competencies and fulfilment of the objectives for which postgraduate courses have been started in medical institutions.

RECOGNITION OF DNB, DrNB & FNB QUALIFICATIONS

The nomenclature of the qualification awarded by the National Board of Examinations in Medical Sciences (NBEMS) is "Diplomate of National Board" (DNB), "Doctorate of National Board" (DrNB) & "Fellow of National Board" (FNB). These qualifications awarded by NBEMS in various Broad Specialties, Super specialties and Sub-Specialties are approved by the Government of India and included in the First Schedule of IMC (repealed) Act 1956 / NMC Act 2019.

2. DNB, DrNB & FNB Courses

2.1. Applications are invited from the hospitals/medical colleges / medical institutions for:

- Fresh and Renewal of accreditation for Super Specialty courses (DrNB).
- Fresh and Renewal of accreditation for Fellowship courses (FNB).
- Fresh and Renewal of accreditation for Broad specialty (DNB) including Direct 6 years courses.

2.2. Hospitals/Institutes accredited till June 2025 for Super-specialty courses and Fellowship courses may apply for renewal of accreditation.

2.3. Hospitals/Institutes accredited till December 2025 for Broad specialty courses including Direct 6 years courses may also apply for renewal of accreditation.

2.4. NBEMS offers the following courses:

A. Broad Specialty: (Diplomate of National Board-DNB)

Post MBBS 3 Year Courses

- i Anaesthesiology*
- ii Anatomy
- iii Biochemistry
- iv Community Medicine
- v Dermatology, Venereology and Leprosy*
- vi Emergency Medicine*
- vii Family Medicine*
- viii Forensic Medicine
- ix General Medicine
- x General Surgery
- xi Geriatric Medicine
- xii Hospital Administration
- xiii Immunohematology and Blood Transfusion
- xiv Microbiology
- xv Nuclear Medicine*
- xvi Obstetrics and Gynaecology*
- xvii Ophthalmology*
- xviii Orthopaedics*
- xix Otorhinolaryngology (ENT)*
- xx Paediatrics*
- xxi Palliative Medicine
- xxii Pathology
- xxiii Pharmacology
- xxiv Physical Medicine and Rehabilitation*
- xxv Physiology

Post Diploma 2 Year Courses

* Post Diploma (2 years) DNB course is also available in addition to Post MBBS 3-years DNB course. The application for Post MBBS 3 years course in these specialties (with Asterisk mark) will also be automatically considered for the Post Diploma 2 years course.

- xxvi Psychiatry*
- xxvii Radiation Oncology*
- xxviii Radio Diagnosis*
- xxix Respiratory Medicine*

B. Super Specialty: (Doctorate of National Board-DrNB)

Post MD/MS/DNB 3 Year Courses

- i Cardiac Anaesthesia
- ii Cardio Vascular & Thoracic Surgery
- iii Cardiology
- iv Clinical Haematology
- v Clinical Immunology and Rheumatology
- vi Critical Care Medicine
- vii Endocrinology
- viii Gynaecological Oncology
- ix Infectious Disease
- x Interventional Radiology
- xi Medical Gastroenterology
- xii Medical Genetics
- xiii Medical Oncology
- xiv Neonatology
- xv Nephrology
- xvi Neuro Anaesthesia
- xvii Neuro Surgery
- xviii Neurology
- xix Paediatric Cardiology
- xx Paediatric Critical Care
- xxi Paediatric Neurology
- xxii Paediatric Surgery
- xxiii Plastic & Reconstructive Surgery
- xxiv Surgical Gastroenterology
- xxv Surgical Oncology
- xxvi Thoracic Surgery
- xxvii Urology
- xxviii Vascular Surgery

C. Direct 6 Years Super Specialty:

Doctorate of National Board- DrNB: Post MBBS 6 Years Course

- i Cardio Vascular & Thoracic Surgery (Direct 6 Years Course)
- ii Neuro Surgery (Direct 6 Years Course)
- iii Paediatric Surgery (Direct 6 Years Course)
- iv Plastic & Reconstructive Surgery (Direct 6 Years Course)

D. Fellowship: (Fellow of National Board-FNB)

Two Years Post Graduate / Post-Doctoral FNB Courses			
i.	Addiction Psychiatry	xxii.	Paediatric Cardio Thoracic and Vascular Surgery
ii.	Andrology	xxiii.	Paediatric Emergency Medicine
iii.	Arthroplasty	xxiv.	Paediatric Endocrinology
iv.	Bariatric Surgery	xxv.	Paediatric Gastroenterology
v.	Breast Imaging	xxvi.	Paediatric Hemato-Oncology *
vi.	Cardiac Electrophysiology	xxvii.	Paediatric Nephrology
vii.	Child and Adolescent Psychiatry	xxviii.	Paediatric Orthopaedics
viii.	Colorectal Surgery	xxix.	Paediatric Radiology
ix.	Fetal Radiology	xxx.	Paediatric Urology
x.	Hand & Micro Surgery	xxxi.	Pain Medicine
xi.	Head & Neck Oncology	xxxii.	Renal Transplant
xii.	Interventional Cardiology	xxxiii.	Reproductive Medicine
xiii.	Liver Transplantation	xxxiv.	Sleep Medicine
xiv.	Maternal & Foetal Medicine	xxxv.	Spine Surgery
xv.	Minimal Access Surgery	xxxvi.	Sports Medicine
xvi.	Minimal Access Urology	xxxvii.	Stroke Medicine
xvii.	Minimally Invasive Gynaecologic Surgery	xxxviii.	Transplant Anaesthesia
xviii.	Musculoskeletal Radiology(MSK Radiology)	xxxix.	Trauma & Acute Care Surgery (previously Trauma Care)
xix.	Neurovascular Intervention	xl.	Trauma Anaesthesia & Critical Care
xx.	Onco- Anaesthesia	xli.	Vitreo Retinal Surgery
xxi.	Paediatric Anaesthesia	xlii.	

* The Fellowship Course in Paediatric Hemato Oncology has been converted to Super Specialty DrNB course in Paediatric Hemato Oncology. NBEMS is preparing the minimum Accreditation criteria for DrNB course in Paediatric Hemato Oncology. Once the Criteria has been prepared, NBEMS will Invite applications for DrNB Paediatric Hemato Oncology.

3. Applying for NBEMS Accreditation

A. General Instructions

- 3.1. National Board of Examinations in Medical Sciences (NBEMS) accredits hospitals/institutions for running DNB/DrNB courses in various Broad & Super Specialty and Fellowship courses.
- 3.2. The grant of accreditation is solely at the discretion of NBEMS and subject to fulfilment of criteria prescribed by NBEMS.
- 3.3. The hospitals running two years Diploma courses in any of the eight specialties can also apply for DNB/DrNB courses with the same infrastructure. However, the faculty which has been considered for the Diploma course will not be considered for the DNB/DrNB i.e. **the applicant hospital shall be required to have separate faculty for the DNB/DrNB courses.**
- 3.4. Mere online registration of applicant hospital/ online application submission/ payment of accreditation fee/ submission of hard copy of application to NBEMS/ fulfilment of NBEMS accreditation criteria does not render an applicant hospital/institute eligible for grant of accreditation or imply that NBEMS must accredit the applicant hospital/institute.
- 3.5. NBEMS reserves its absolute rights to alter/modify/delete/amend any or all of the criteria as given in this information bulletin at any stage during the process.
- 3.6. Applicant hospitals/institutes shall have no rights or equity in their favor merely because they have submitted their application seeking accreditation with NBEMS.
- 3.7. Applicant hospitals/institutes are required to study the Information Bulletin and instructions for fulfilment of eligibility criteria before submitting the application form.
- 3.8. Instructions in this Information Bulletin are liable to be changed on the decisions taken by NBEMS from time to time. Please refer to the NBEMS website www.natboard.edu.in for updates.
- 3.9. The existing schedule, pattern, policy and guidelines for accreditation are for ready reference only but are not to be treated for the fact that the NBEMS is bound to follow the same in future. In case of any ambiguity in interpretation of any of the

instructions/terms / rules / criteria regarding the determination of eligibility / grant of accreditation/any of the information contained in the information bulletin the interpretation of NBEMS shall be final and binding on all parties. NBEMS reserves its rights to relax any of the criteria/clause if so deemed appropriate in case of grant of renewal/ fresh accreditation.

- 3.10. Submission of false information or fabricated records for the purpose of seeking accreditation may lead to disqualification for accreditation and debarment from seeking accreditation in future as well.
- 3.11. Applications of applicant hospitals/institutes seeking accreditation with NBEMS which do not fulfil the prescribed minimum accreditation criteria may be summarily rejected by NBEMS at Pre - Assessment stage i.e. before undertaking physical inspection of the hospital by NBEMS appointed assessor.
- 3.12. The grant of accreditation by NBEMS is purely provisional and is governed by the terms and conditions as stated in the accreditation agreement. A copy of the same will be sent across to the applicant hospitals/institutes after it has been accredited by NBEMS.
- 3.13. Applicant hospital/institute may kindly note that the use of any agent or agency or any party who is not an employee or office bearer of the applicant hospital/institute for the purpose of preparing, drafting, submitting and/or representing the applicant hospital/institute is strictly prohibited. In the event of such an instance been brought to the notice of NBEMS, NBEMS reserves its absolute right to summarily reject the application besides further action as may be deemed appropriate including but not limited to debarment from filing application seeking accreditation in future.
- 3.14. Statements made by the applicant hospital shall be certified by the Head of the Institute at appropriate place and the claims made in the application shall be supported by relevant document(s).
- 3.15. Applications submitted by the hospital/institute which are incomplete are likely to be rejected.
- 3.16. The applicant hospitals are required to provide correct, updated and factual information at the time of submission of application form. Additional information is required to be furnished by the applicant hospitals whenever sought by NBEMS or if there are changes in the faculty or infrastructure of the applicant hospitals pursuant to the submission of application form.

- 3.17. Request for change in specialty/clubbing of applications will not be considered under any circumstances.
- 3.18. The application form has to be submitted as per the guidelines contained in the Information Bulletin and Online Accreditation Application Portal.
- 3.19. Parallel programme (in affiliation with other universities/organizations) of similar nature with duration of 2 – 3 years (or more), shall not be allowed in the same department along with DNB/ DrNB/ FNB courses. Hospitals which administer such parallel programme shall be required to discontinue with the parallel programme after introduction of DNB/ DrNB/ FNB courses in the department over a period of 01 year. If the concerned hospital/institute fails to do so, the respective DNB/ DrNB/ FNB courses shall be discontinued.
- 3.20. All NBEMS accredited departments are permitted a maximum window of 01 year to discontinue with their parallel programme, if any.
- 3.21. The jurisdiction for any dispute shall be at New Delhi only.

B. Online Accreditation Application Portal (OAAP)

3.22. Applicant hospitals/institutes shall be required to submit the application form online through **Online Accreditation Application Portal (OAAP)** as per the steps indicated below.

- Create a User – Online (**Click here for details**) *

- Create a profile of the applicant hospital – Online. The hospital profile will be verified by NBEMS. The applicant hospital cannot submit the application unless the profile is verified by NBEMS. (**Click here for details**)

- Fill the Main application form & Specialty Application form online – (**Click here for details**)

- Complete the application form and upload Annexure / Documents - Online

- Fee payment through online payment portal – Online

- Print and submit the hard copy of the Main & Specialty Application form (separately) – Offline

* *Hospital/Institute which has already created a user & profile on OAAP in the past is not required to create another user/profile.*

C. Application Compilation & Submission

The application form has two parts:

- 3.23. **Main Application Form:** This part of application comprises of information which is common/applicable to all specialties. The main application forms need to be completed and submitted online only once in an application session.
- 3.24. **Specialty Specific Application Form :** This part of the application comprises of specialty specific information and the online forms are unique for each specialty in which accreditation is being sought.
- 3.25. On successful online submission of application forms, the hospital shall be able to take print out of the application forms and the annexures/Documents that have been uploaded.
- 3.26. The applicant hospital shall be required to submit the duly signed & stamped hard copy print-outs of the both Main & the specialty specific application form along with the necessary annexures//Documents, covering letter and the payment receipt.
- 3.27. The hard copy of the application form should reach NBEMS office at the following address latest by **16-06-2025**. Applications received thereafter shall not be considered.

To,
Accreditation Department
National Board of Examinations in Medical Sciences,
Medical Enclave,
Ansari Nagar, New Delhi -110029

Annexures/Documents are available at <https://accr.natboard.edu.in/> under the quick link '**Downloads**'

- 3.28. The application forms should be spirally bound. Main and each Specialty Specific Application Forms with relevant enclosures/documents should be spirally bound separately. Applications submitted as loose papers/ without being bound spirally shall be returned to the applicant hospital/institute without processing. Main and Specialty specific forms should not be bound together.

3.29. The hospital shall be required to submit definite compliance to deficiencies pointed out to the hospital/institute by NBEMS. Please be apprised that fulfilment of minimum accreditation requirements is a pre-requisite for grant of accreditation and cannot be fulfilled post-facto.

3.30. Through Online Accreditation Application Portal (OAAP), the hospital/institute can access the following:

- Notices & Circulars issued by NBEMS
- Information Bulletin
- Submission of Application Forms
- Status of Application Forms
- Submission of Application form for mid cycle review
- Accredited seats
- Approved faculty for the Accredited Specialty
- Addition/Change the SPOC/HOD/DNB coordinator
- Submit consent for Seat Matrix for the purpose of counseling
- Download Accreditation related Annexures/Documents
- Update Hospital Profile
- View Grievance Committee Details
- Change Password

3.31. Information submitted under various parameters (such as number of operational beds, single or multi-specialty, management type, Date of starting clinical operations etc.) shall be updated in NBEMS records only if it is supported with authenticated documents submitted along with the application.

D. Accreditation Fee

3.32. Applicant hospital/institute seeking fresh accreditation or renewal of accreditation in any specialty are required to pay an accreditation fee of Rs. 2,00,000/- **Plus GST @ 18%** for each specialty specific application. The application form fee for each specialty specific application is Rs. 3,000/- **Plus GST @ 5%**.

The total fee to be paid for each specialty specific application is as follows:

TABLE-2

Accreditation Fee for each Specialty *	Rs 2,00,000/-
GST @ 18% on Accreditation fee	Rs. 36,000/-
Application Form Fee	Rs. 3,000/-
GST @ 5% on Accreditation fee	Rs. 150/-
Total fee to be paid per specialty	Rs. 2,39,150/-

*Defense Institutions are exempted from submitting accreditation fee of Rs. 2,00,000/-. However, the application form fee of Rs. 3,000/- + GST @ 5% shall be required to be paid.

3.33. Applicant hospital/institute shall be able to pay the above-mentioned fee only through Online Payment Portal of NBEMS. Payment made through any other portal shall not be accepted.

3.34. The application form shall only be considered as successfully submitted only if the accreditation fee has been paid successfully to NBEMS. NBEMS shall not be responsible for any transaction failure or delay in processing of the transaction.

3.35. In case of applying for more than one specialty, the accreditation fee for each application form has to be paid **separately**.

3.36. Partial refund of Accreditation Fee is admissible under the following conditions:

TABLE-3

Refund of Accreditation Fee*	Terms & Conditions
90% of total fee#	<ul style="list-style-type: none"> • If the application is withdrawn by the applicant hospital/institute within 4 weeks of the last date for submission of online application to NBEMS • Incomplete applications which are summarily rejected without subjecting them to a detailed “Pre-assessment processing”.
50% of total fee#	<ul style="list-style-type: none"> • If the application is withdrawn by the applicant hospital / institute after 4 weeks of the last date for online application submission to NBEMS, but before the physical assessment/inspection of the applicant department by NBEMS appointed assessor. • If the application is rejected at pre-assessment level (prior to physical assessment/inspection of the department by NBEMS appointed assessor) due to non-fulfilment of minimum accreditation criteria and/or the hospital fails to submit definite compliance within stipulated time (if so required) to the Pre - Assessment deficiencies communicated to the hospital by NBEMS.

Refund of Accreditation Fee*	Terms & Conditions
No refund shall be admissible	<ul style="list-style-type: none"> Once the physical assessment/inspection of the applicant department has been conducted by NBEMS appointed assessor.

* Application form fee of Rs. 3,000/- + GST @ 5% (i.e. a total of Rs. 3150/-) is non-refundable under any circumstances.

GST paid by the hospital shall be refunded proportionately.

For Example:

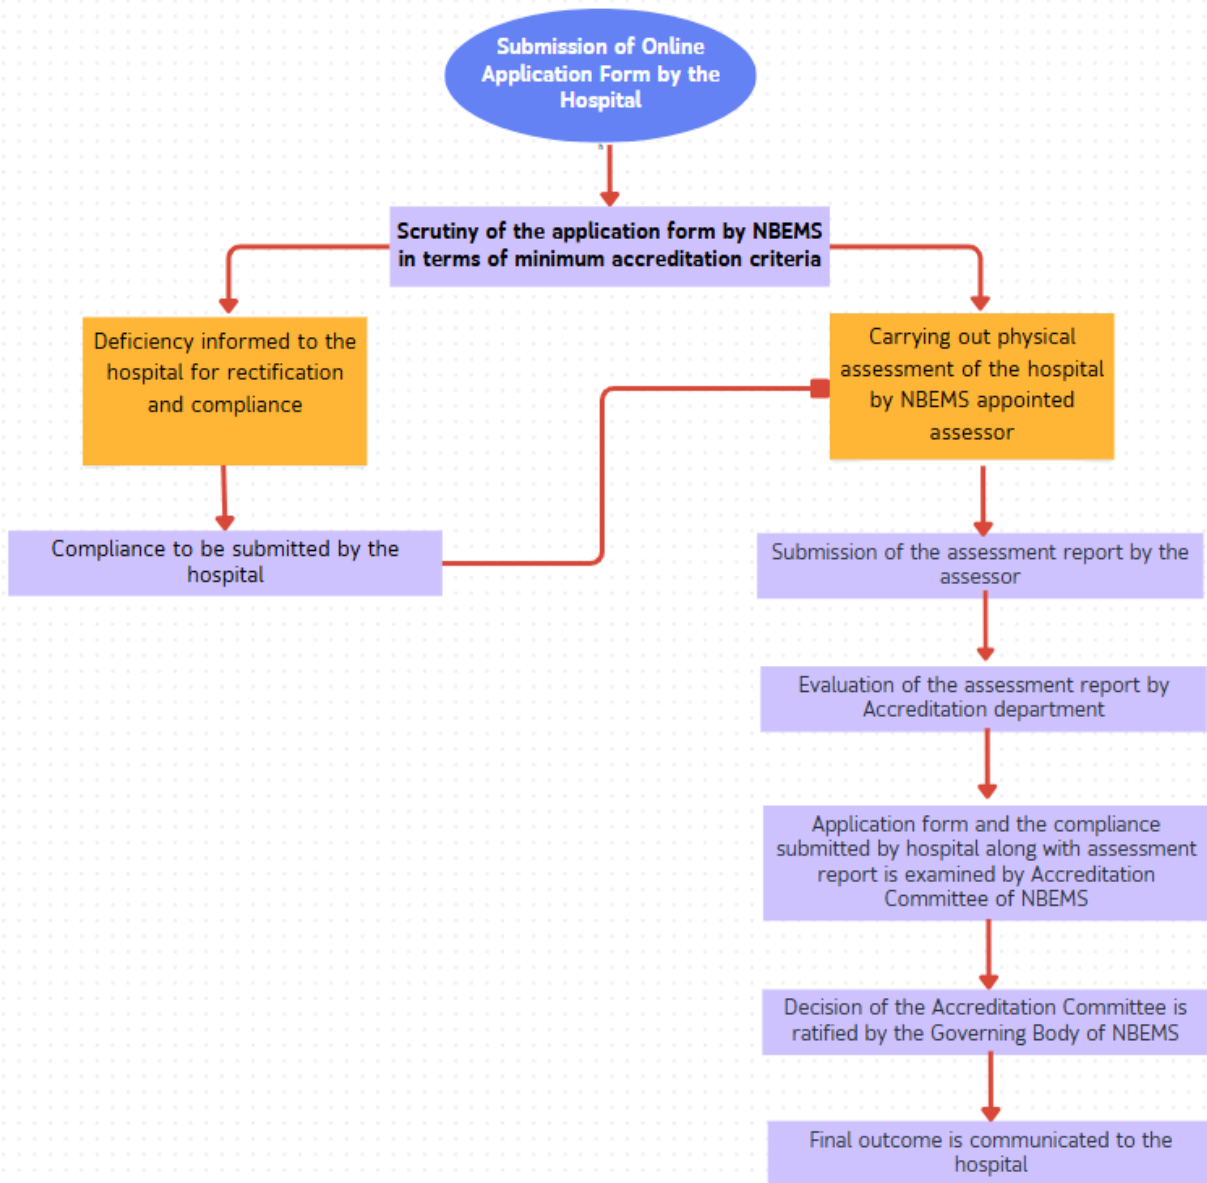

Refundable Fee	Amount	GST Refundable	Total Refund
90% of the Accreditation fee	Rs.1,80,000/-	Rs.32,400/-	Rs.2,12,400/-
50% of the Accreditation fee	Rs.1,00,000/-	Rs.18,000/-	Rs.1,18,000/-

3.37. The accreditation fee will not be carried forward to a future date and/or for another application.

3.38. Application form submitted to NBEMS without payment of accreditation fee including GST shall not be processed.

E. Processing of the Applications:

The major steps in processing of the application forms are as follows:

3.39. Grossly incomplete applications or applications not fulfilling the minimum accreditation criteria shall be closed at Pre-assessment level i.e. without undertaking any physical assessment/ inspection of the hospital.

3.40. **Compliance submission to Pre - Assessment Deficiencies:** The applicant hospital shall be given an opportunity to submit compliance to the deficiencies noted in the pre-assessment processing of the application form. The hospital shall be able to upload the required documents/compliance through OAAP or at accr@natboard.edu.in OR at any

other email ID indicated to the hospital/institute by the Accreditation Department of NBEMS.

- 3.41. Assessment of the applicant hospital:** NBEMS shall be appointing an independent assessor to undertake the physical assessment/inspection of the hospital with regards to infrastructure, facilities, faculty, patient load and other related information. The assessment schedule will be intimated to the applicant hospital 2 weeks in advance. The exact date of the physical assessment along with the details of NBEMS appointed assessor shall be informed to the hospital 1-2 days prior to the date of assessment/Inspection.
- 3.42. Application form and the documents submitted by the hospital along with the assessment report of NBEMS appointed assessor shall be placed before the NBEMS Accreditation Committee.
- 3.43. The decision of the Accreditation Committee shall be communicated to the hospital after it is approved by Governing Body, NBEMS.
- 3.44. It usually takes 6-9 months for completing the processing of application form (from the date of receipt of the hard copy of the application form at NBEMS till approval from the Governing Body, NBEMS and communication to the applicant hospital).
- 3.45. The accreditation, if granted by NBEMS, is purely provisional and is valid for a period of up to five years. Once the accreditation is granted to the applicant hospital in any specialty, the hospital will be required to sign an Accreditation Agreement which contains the various terms & conditions applicable to the accredited hospital. A copy of Sample Accreditation Agreement can be seen at **Annexure I**. The applicant hospital may note that the grant of accreditation is purely provisional and non-compliance of the Accreditation Agreement shall lead to withdrawal of accreditation by NBEMS.
- 3.46. Mid Cycle Review of Accreditation:**
- The grant of accreditation by NBEMS to a department for a DNB/DrNB/FNB programme is purely provisional and is governed by the terms and conditions as stated in the Accreditation Agreement and compliance to the same as verified in mid cycle review of the department.
 - NBEMS shall undertake a mid-cycle review of the accredited department in the 3rd year of the accreditation cycle, to ensure that the hospital is complying with the terms & conditions of the Accreditation Agreement and is fulfilling the minimum NBEMS accreditation criteria. Further details regarding mid cycle review shall be informed to hospital through Public notice and emails

- The accredited DNB/DrNB/FNB seat of a department may be excluded from the counseling seat matrix if the hospital fails to successfully complete the mid cycle review of the concerned specialty.

3.47. NBEMS has introduced Post MBBS 02 years Diploma (NBEMS) courses in the following nine Broad specialties:

TABLE-4

S.No.	Specialty	Name of the Qualification
1	Anaesthesiology	DA (NBEMS)
2	Obstetrics & Gynaecology	DGO (NBEMS)
3	Paediatrics	DCH (NBEMS)
4	Family Medicine	DFam.Med (NBEMS)
5	Ophthalmology	DO (NBEMS)
6	Otorhinolaryngology (ENT)	DLO (NBEMS)
7	Radio Diagnosis	DMRD (NBEMS)
8	Tuberculosis & Chest Disease	DTCD (NBEMS)
9	Emergency Medicine	DEM (NBEMS)

3.48. The Information Bulletin for the Diploma courses can be seen at NBEMS website www.natboard.edu.in . Applications not fulfilling the accreditation criteria for the DNB courses may be considered by NBEMS for the Diploma courses (subject to consent from the concerned hospital), if found suitable in terms of minimum accreditation criteria for the Diploma courses.

F. Joint Accreditation Programme:

3.49. National Board of Examinations in Medical Sciences (NBEMS) accredits hospitals/institutions for running DNB/DrNB/FNB/Diploma courses in various Broad & Super Specialty and Fellowship courses. Accreditation Department invites applications for fresh/renewal accreditation twice a year in January/February and July/August.

3.50. Many hospitals fail to receive NBEMS Accreditation despite having good facilities and the infrastructure to offer PG training because they fall short of meeting a few of the minimum accreditation criteria specified by the NBEMS. To utilize the available resources of hospitals and to provide them with an opportunity to give PG training, a scheme for Joint Accreditation of the hospitals has been approved by the NBEMS.

3.51. Objectives of the Joint Accreditation:

- i. Resource Utilization
- ii. Case load and Case Mix Distribution
- iii. Upscale the quality of training programme
- iv. Financial Sharing

3.52. Applicability: The concept of Joint Accreditation shall only be limited to Broad-Specialties (DNB Courses).

3.53. Which hospitals can join:

Four types of different institutions can collaborate for Joint Accreditation:

- i. Govt. Hospital to Govt. Hospital
- ii. Private to Govt. Hospital
- iii. Private to Private Hospital
- iv. Standalone Imaging/Diagnostic Lab Centres along with a Hospital

3.54. Which Institution cannot participate:

The institutions which are already running the NMC courses.

3.55. Key points –

Hospital Infrastructure for Joint Accreditation

i. Location of the Hospitals:

- Both the hospitals participating in the Joint Accreditation Programme will **be located** within 100 km range or within an adjacent city of each other. They will apply jointly and will jointly complement each other's deficit in the training requirements.
- For the functional purpose, it will be single programme but for the Administration purpose, **one institute will be known as Primary Institute and the other smaller institute will be considered as Secondary Institute**

ii. Bed strength, case load and faculty requirement:

- For Joint Accreditation, **each of the two participating hospitals should have a minimum 90 beds** i.e. hospitals with less than 90 beds will not be considered for the purpose of joint accreditation.
- **The case load and faculties of both the participating hospitals will be clubbed together** and the participating hospitals will have to fulfil the Minimum Accreditation Criteria of NBEMS in terms of case load, case mix and faculty etc.
- There should be at least one Senior Consultant OR one Junior Consultant in both the participating hospitals.
- The minimum accreditation criteria for Joint Accreditation i.e. Bed Strength, full time faculty, Case Load, Institutional Ethics Committee and others shall be same as indicated in the Accreditation Information Bulletin (please refer to <https://natboard.edu.in> for latest Information Bulletin).

iii. The number of Joint Accreditation the hospitals can have is tabulated below.

Criteria	Remarks
Each of the two participating hospitals should have minimum 90 beds i.e. hospitals with fewer than 90 beds will not be considered for the purpose of joint accreditation.	Two hospitals with 90 + 90 beds respectively can apply for 1 Joint accreditation i.e. in one specialty.
100 beds will be allowed for 1 Joint Accreditation , i.e., with collective capacity of 190 beds, more than one could be considered.	Two hospitals with 100 + 90 beds respectively can apply for up to 2 Joint accreditations i.e. in two specialties.
150 beds will be allowed for 2 Joint Accreditation , i.e., collective capacity of minimum 240 beds (150+90) could be considered for more than two accreditations.	Two hospitals with 150 + 90 beds respectively can apply for up to 3 Joint accreditations i.e. in three specialties.

<p>Those with 200 and above beds will be allowed for 3 Joint Accreditation i.e., collective capacity of 290 beds (200+90) could be considered for more than three accreditations.</p>	<p>Two hospitals with 200 + 90 beds respectively can apply for more than 3 Joint accreditations.</p>
--	--

iv. Stipend:

- **Stipend will be shared by both the institutions** i.e., if the trainee is in institution A, the stipend will be paid by institution A. Similarly, if the trainee is in institution B, the stipend will be paid by the institution B.

3.56. Monitoring of the programme

- There shall be a **single Joint Academic Committee from both the participating hospitals**. This committee will be responsible for imparting training, adequate rotation and monitoring of the training of the candidate. The Joint Academic Committee shall comprise of:

❖ **Composition of Joint Academic Committee:**

The composition of Joint Academic Committee for Monitoring the training of the candidates is as under:

- Head of the Primary Institute
- Head of the Secondary Institute
- Single Point of Contact of Primary Institute
- Single Point of Contact of Secondary Institute
- Nodal Officer/DNB Coordinator for the DNB Course

- Further, there would be a Nodal officer who would coordinate with NBEMS for issues pertaining to accreditation and training of the trainees.

- A **grievance redressal cell** should be made comprising equal number of members from both the organizations.

❖ **Composition of Grievance Redressal Cell:**

The composition of Grievance Redressal Cell for Redressal of the grievances of the candidates proposed is as under:

-
- **Head of the Primary Institute – Chairman**
 - **Head of the Secondary Institute**
 - **In-house, Senior Consultant, Medical Specialty**
 - **In-house, Senior Consultant, Surgical Specialty**
 - **Nodal Officer/DNB Coordinator for the Joint Accreditation Programme.**
 - **Representative of DNB Candidates of the hospital**
 - **External Medical Expert of the Rank of Professor of a Govt. Medical College**
-

- The grievances arising out of the Joint Accreditation Programme will be primarily resolved by the Joint Academic Committee of the participating hospitals and the grievance redressal cell.
- If the main accredited institute i.e. the primary institute fails to continue the Joint Accreditation Programme, then all the residents shall be relocated as per the guidelines of NBEMS. In case of failure of the secondary institute to continue the programme, the primary accredited institute will ensure completion of training of the existing trainees and no further trainees will be inducted in the programme till the new collaborator is identified.
- **The liability will be held by both the participating institution and there will be mandatory tripartite legal agreement to be signed by both the institution as well as NBEMS.**
- Department / Specialty already accredited with NBEMS cannot participate in Joint Accreditation programme.

3.57. **Physical Assessment / Inspection:**

Inspection of both the hospitals applying for Joint Accreditation shall be conducted. The same assessor will carry out inspection of both the hospitals on the same day.

3.58. **Minimum Accreditation Criteria for Standalone Diagnostic Centres and Labs:**

- The existing minimum accreditation criteria for DNB Radio diagnosis and DNB Pathology should be applicable for standalone centres.
- The hospital with which the standalone Pathology lab or standalone diagnostic centre would be attached should be recognized for DNB Pathology and DNB Radio Diagnosis respectively.

- Rotational Posting of the trainee to the hospital should be for 03 months per year i.e. 09 months in the entire duration of 03 years of programme.
- The stipend during the rotational posting shall be borne by the standalone centre.
- There should be at least 02 fulltime faculty members in standalone centre.

(Click here to know how to submit the Application form for Joint Accreditation Programme)

4. Minimum Accreditation Criteria

(I). The Applicant Hospital

A. Clinical Establishment:

- 4.1. The applicant Hospital/Institute should be a clinical establishment having requisite infrastructure of minimum prescribed beds providing comprehensive OPD and IPD based medical services in a single campus. Any clubbing of infrastructure, facilities and faculty of multiple hospitals/units of the applicant hospital is not permitted for seeking accreditation in the name of the applicant hospital.
- 4.2. The applicant hospital should have a minimum of 02 years of standing in clinical establishment before it can be considered for commencement of DNB, DrNB or FNB courses. However, the hospital can apply for seeking accreditation with NBEMS after completing 01 year in clinical operations. Years in clinical operation should be substantiated with supportive documents such as certificate of registration of the applicant hospital under applicable Acts & Rules. The hospitals failing to submit the required documents to substantiate the minimum required period in clinical operations (i.e. at least 01 year by the last date of application submission) shall not be processed.
- 4.3. Mandatory regulatory/ licensing approvals and all statutory requirement/clearances should have been obtained from the appropriate administrative authorities/ State Government/ Central Government/ Pollution Control Board/ Municipal Corporations /Councils. It shall be the responsibility of the hospital to obtain the necessary clearances and NBEMS shall not be responsible if the hospital fails to obtain or comply any required mandatory certifications such as, but not limited to:
 - Certificate of Registration of the hospital under the applicable Acts and Rules
 - Pollution Control Board Certificate issued by the State Government for Bio-medical waste Management
 - Valid Fire Safety Certificate from the State Fire Department
 - Building Complex Occupancy Certificate
 - Certificate of Incorporation of Parent Company/ Certificate of Registrar of Society (if applicable)
 - AERB approval for operations of Medical Diagnostic Equipment (X-rays, CT scan, MRI, PET Scan, Linear Accelerator etc.)
 - Certificate issued by the State Government to the agency which is authorized for Bio-Medical waste management of the applicant hospital

- Other regulatory approvals which may be specific to the specialty applied for seeking accreditation
- 4.4. Applicant Hospitals may note that:
- Stand-alone Oncology centres/hospital are not eligible to apply for DrNB Neurosurgery
 - Stand-alone Pathology/Laboratory centres are not eligible to apply for DNB Pathology course.
 - Stand-alone Diagnostic centres are not eligible to apply for DNB Radio Diagnosis

B. Bed strength of the Applicant Hospital

- 4.5. Following categories of hospitals are eligible to seek accreditation with NBEMS for various DNB, DrNB & FNB courses as detailed under:
- **Category - 1:** Multi-Specialty hospital (offering services in more than 01 specialty area) with at least 200 beds can apply for accreditation in any number of DNB, DrNB & FNB courses, in accordance with the minimum number of beds required in each specialty and the total number of beds in the applicant hospital.
 - **Category - 2:** Multi-Specialty hospital (offering services in multiple specialty areas) with 150 or more but less than 200 total operational beds in the hospital can seek accreditation only in any 04 courses (All DNB/DrNB or All FNB or DNB/ DrNB & FNB).
 - **Category - 3:** Multi-Specialty hospital (offering services in multiple specialty areas) with 100 or more but less than 150 total operational beds in hospital can seek accreditation only in any 02 DNB, DrNB or FNB course.
 - **Category - 4:** Multi-Specialty hospital (offering services **predominantly** in 01 specialty area only; Other specialties being ancillary in nature) with fewer than 200 total operational beds but at least 100 beds dedicated to the predominant specialty area can seek accreditation in all allied DNB/ DrNB/ FNB course of that **01 specialty area** which is the area of its predominant practice. For e.g. A 140 bedded predominant neuroscience centre with at least 100 beds dedicated for neurosciences and other specialty services being ancillary in nature can seek accreditation for DrNB Neurology, DrNB Neurosurgery, DrNB Neuro Anaesthesia, FNB Neurovascular Intervention. However, a 140 bedded multi-specialty hospital which is not a predominant neuroscience centre (i.e. at least 100 beds are not dedicated to neurosciences) can seek accreditation in only 01 of these 04 neuro-sciences related programme.

- **Category – 5:** Single Specialty hospital (offering services **exclusively** in 01 specialty area only) with at least 100 beds can seek accreditation in all allied DNB, DrNB & FNB course of that **01 specialty area**. For e.g. an exclusive Cardiac Sciences centre with 100 beds can apply for DrNB Cardio Vascular & Thoracic Surgery, DrNB Cardiology, DrNB Cardiac Anaesthesia, FNB Interventional Cardiology. A 100 bedded multi-specialty hospital in contrast can seek accreditation in only 01 of these 04 cardiac-sciences programme.
- Some examples of 01 specialty area and respective eligible DNB/ DrNB/ FNB courses which single specialty centres or predominant practice centres can seek accreditation are as under:

TABLE-5

Maternal & Child Health centre	<ul style="list-style-type: none"> • DNB Obstetrics & Gynaecology • DNB Paediatrics • DrNB Neonatology • DrNB Paediatric Critical Care • FNB Reproductive Medicine • FNB Maternal and Foetal Medicine (previously High Risk Pregnancy & Perinatology)
Oncology centre	<ul style="list-style-type: none"> • DNB Radiation Oncology • DrNB Surgical Oncology • DrNB Medical Oncology.
Orthopaedics & Plastic Surgery centre	<ul style="list-style-type: none"> • DNB Orthopaedics • DrNB Plastic & Reconstructive Surgery • FNB Hand & Micro Surgery • FNB Spine Surgery • FNB Sports Medicine • FNB Trauma & Acute Care Surgery. • FNB Arthroplasty
Neuroscience centre	<ul style="list-style-type: none"> • DrNB Neurology • DrNB Neurosurgery • DrNB Neuro Anaesthesia • FNB Neurovascular Intervention.
Cardiac Science centre	<ul style="list-style-type: none"> • DrNB Cardio Vascular & Thoracic Surgery • DrNB Cardiology • DrNB Cardiac Anaesthesia

	<ul style="list-style-type: none">• DrNB Paediatric Cardiology• DrNB Thoracic Surgery• FNB Interventional Cardiology.
--	---

- 4.6. In case of specialties wherein clinical care is primarily day care or consultation based such as Endocrinology, Clinical Immunology and Rheumatology, Dermatology Venereology and Leprosy, Ophthalmology, and Reproductive Medicine; the work load shall be evaluated on the basis of OPD case load, cross-referencing between the departments, day care surgeries (if applicable) etc. However, the applicant hospital applying for accreditation for day care specialties should have a minimum of 100 beds (except for Ophthalmology and Reproductive Medicine).
- 4.7. For applying for accreditation in Ophthalmology or Reproductive Medicine, the applicant hospital should be having a minimum of 10 beds.
- 4.8. The total number of operational beds in the hospital (as claimed to be authorized for commissioning) has to be certified with supportive documents such as “*Consent to Operate*” authorization from State Pollution Control Board (SPCB).
- 4.9. The “*Consent to Operate*” for the total beds **should have been granted by SPCB by the last date of application submission**. Applications submitted to SPCB for seeking consent for expansion of beds shall not be considered in lieu of “*Consent to Operate*” certificate issued by SPCB. Failure to substantiate the claimed number of total operational beds in the hospital with supportive documents shall invite closure of the application.

(II). Requirements in Applicant Departments

A. Beds in the applicant department/specialty of the hospital:

- 4.10. The applicant hospital should have a minimum number of operational beds in each applicant department as prescribed by NBEMS.
- 4.11. Patient care facilities (OPD, IPD, OT, ICUs, Labs, Equipment etc.) as applicable for the specialty applied for should be available.
- 4.12. **General Beds:** General Beds are those ‘*earmarked*’ beds / cases whose patients shall be accessible at all times for supervised clinical work to NBEMS trainees. Data of patients admitted on such beds or such cases shall be accessible to NBEMS trainees for research purposes subject to applicable ethical guidelines and clearances from Institutional Ethics

Committee & Institutional policies. The applicant department should have a minimum of 30% beds under this category.

4.13. General patients: General patients are those patients who shall be accessible at all times for supervised clinical work to NBEMS trainees. Data of General patients shall be accessible to NBEMS trainees for research purposes subject to applicable ethical guidelines and clearances from Institutional Ethics Committee & Institutional policies. The applicant department should have a minimum of 30% Patients under this category.

4.14. Beds & other Infrastructural requirement: The minimum prescribed beds for each specialty are tabulated below.

Broad Specialty (DNB) Courses

TABLE-6

S. No.	Departments	Minimum Beds in the applicant department and other infrastructural requirements
i.	Anaesthesiology	<p>The hospital should have an Intensive Care Unit catering to all the specialties, medical as well as surgical with a minimum bed strength of 10 beds.</p> <p>The department of Anaesthesiology should be having the in-house departments of the following core areas:</p> <ul style="list-style-type: none"> • General Surgery • Orthopaedics / Trauma / Emergency Medicine • ENT • Obstetrics and Gynaecology • Pain Clinic
ii.	Emergency Medicine	<p>11 ER Beds; 15 ICU beds (MICU, SICU, PICU, ICCU) in the hospital</p> <ul style="list-style-type: none"> • Minimum bed requirement in the emergency department is 11 beds of which, there should be 1 triage bed, 3 beds with all resuscitative facilities (including ventilators) for 'red' category, 5 beds for 'yellow' category and 2 beds for 'green' category patients. • All 11 beds (except triage bed) should have bed-side monitoring facilities.

S. No.	Departments	Minimum Beds in the applicant department and other infrastructural requirements
		<ul style="list-style-type: none"> • 1 ultrasound machine to be available in the emergency department round-the-clock. • Round-the-clock availability of cardiac biomarkers, arterial blood gas and basic blood investigations. • At least 15 ICU beds in the hospital of which minimum 3 should be ventilator beds and all should have required facilities for bed side monitoring of critical patients • 24 hr Ambulance services adequately equipped for onsite resuscitation and transfer of critically injured/ill patients with trained manpower. • 24 hr adequately equipped in-house blood storage facility; Hospitals wherein component preparation facility is not available in-house, a tie up with nearby blood bank shall be required
iii.	Family Medicine	<p>80 Beds comprising of 20 beds each in General Medicine, General Surgery, Obstetrics & Gynaecology & Paediatrics.</p> <ul style="list-style-type: none"> • Beds for DNB Family Medicine Course may overlap with other specialties. For example: 200 bedded hospitals with 35 beds each in General Medicine, General Surgery, Obstetrics & Gynaecology and 30 beds in Paediatrics may seek accreditation for DNB courses in each of the respective specialties and also in Family Medicine. • The General Medicine or Paediatrics department shall be the nodal department for Family Medicine. • At least 30% beds should be General beds
iv.	General Medicine	<p>30 beds; At least 30% should be General beds,</p>

S. No.	Departments	Minimum Beds in the applicant department and other infrastructural requirements
		Out of these 30 beds, not more than 15 beds could be ICU beds. The ICU beds should be dedicated Medical ICU beds (not CCU or any other ICU beds).
v.	General Surgery	30 beds; At least 30% should be General beds. The applicant hospital shall have at least a 5 bedded ICU that may be shared with other specialties as well.
vi.	Geriatric Medicine	-Minimum 15 beds dedicated to Geriatric medicine out of which 3 beds should be from ICU -The applicant hospital must have 24hrs Emergency and Critical care services
vii.	Obstetrics and Gynaecology	30 beds; At least 30% should be General beds
viii.	Ophthalmology	10 beds; At least 30% should be General beds
ix.	Orthopaedics	25 Beds; At least 30% should be General beds
x.	Otorhinolaryngology (ENT)	20 Beds; At least 30% should be General beds
xi.	Paediatrics	30 beds; At least 30% should be General beds Of 30 beds, at least 15 should be General Paediatrics and rest of the 15 can be from various Paediatric sub-specialties.
xii.	Palliative Medicine	Department of Palliative Medicine should have 24 beds distributed as follow: <ul style="list-style-type: none"> ➤ Acute Palliative Care Beds – 4 ➤ End of Life Care Beds – 4 ➤ Consultation Liaison Beds – 16 Should have a DNB/MD program running in at least two broad specialities or Super specialities like General Medicine, Paediatrics, General Surgery, Obstetrics and Gynaecology, Psychiatry, Radiotherapy, Medical Oncology and Surgical Oncology. Should have a cancer centre or oncology department with 2,000 new cancer cases every year.

S. No.	Departments	Minimum Beds in the applicant department and other infrastructural requirements
		Should have a dedicated palliative medicine department with full-time staff
xiii.	Physical Medicine and Rehabilitation	25 Beds; At least 30% should be General beds
xiv.	Psychiatry	30 Beds; At least 30% should be General beds
xv.	Radiation Oncology (Previously Radio Therapy)	25 Beds; At least 30% should be General beds <ul style="list-style-type: none"> • The following equipment's will be considered essential for running DNB programme: <ul style="list-style-type: none"> ○ Two-dimensional Radiation Therapy (2D-RT) ○ Three-dimensional Conformal Radiation Therapy (3D-CRT) ○ Intensity Modulated Radiation Therapy (IMRT) ○ Image Guided Radiation Therapy (IGRT) – This is essential for the training of the trainee. However, if it is not available in the applicant hospital the trainees can be rotated to another hospital having MoU with the applicant hospital for training in IGRT. ○ CT Scan /Stimulators (this equipment should be in the hospital and may not be necessarily in the Radiation Oncology department) ○ Brachytherapy (In case this equipment is not available in the Radiation Oncology

S. No.	Departments	Minimum Beds in the applicant department and other infrastructural requirements
		<p>department of the applicant hospital, the applicant hospital may have an MoU with another hospital (recognized or DNB /MD Radiation Oncology) where candidates can be sent for rotational posting for one month in each year of the three years of training</p> <ul style="list-style-type: none"> • The following equipment's will be optional/desirable essential for running DNB programme: <ul style="list-style-type: none"> ○ Stereotactic Radiosurgery (SRS) ○ Stereotactic Body Radiation Therapy (SBRT) ○ Volumetric Modulated Arc Therapy (VMAT)
xvi.	Respiratory Medicine	30 beds; At least 30% should be General beds
xvii.	Anatomy	<p>There is no requirement of inpatient beds in these specialties. However, optimal case load in clinical disciplines and labs/associated facilities shall be considered.</p> <p>Essential equipment and specialty specific modalities required should be available. In certain disciplines, access to IPD services and operative infrastructure shall be assessed.</p> <p>For DNB Hospital Administration, the applicant hospital must be a multi-specialty hospital.</p> <p>For DNB Forensic medicine, the applicant department shall have minimum 250 medico legal autopsy/Post mortem per year.</p>
xviii.	Biochemistry	
xix.	Community Medicine	
xx.	Dermatology, Venereology and Leprosy	
xxi.	Forensic Medicine	
xxii.	Hospital Administration	
xxiii.	Immunoematology and Blood Transfusion	
xxiv.	Microbiology	
xxv.	Nuclear Medicine	

S. No.	Departments	Minimum Beds in the applicant department and other infrastructural requirements
xxvi.	Pathology Stand-alone Pathology/Laboratory centres are not eligible to apply for DNB Pathology course.	For DNB Radio Diagnosis, the department of Radio Diagnosis should be an integral part of the hospital and MUST have the following imaging modalities: <ul style="list-style-type: none"> • CR/DR • Fluoroscopy • Mammography • Ultrasound including colour Doppler • Spiral / Multi Slice CT • MRI facilities • Cath-lab/interventional radiology facilities ^can be outsourced but installed within the hospital premises. The department of Radio Diagnosis should be in possession of all regulatory clearances namely AERB / Bio-medical radioactive waste management / radiation physics and radiology workstation.
xxvii.	Pharmacology	
xxviii.	Physiology	
xxix.	Radio Diagnosis Stand-alone Diagnostic centres are not eligible to apply for DNB Radio Diagnosis	

Super Specialty (DrNB) Courses

TABLE-7

S. No.	Departments	Minimum Beds in the applicant department and other infrastructural requirements
i.	Cardiac Anaesthesia	10 Cardiac ICU beds
ii.	Cardio Vascular & Thoracic Surgery	20 beds in each specialty At least 30% should be General beds
iii.	Cardiology	
iv.	Clinical Haematology	

S. No.	Departments	Minimum Beds in the applicant department and other infrastructural requirements
v.	Medical Gastroenterology	20 beds required in the department. For DrNB Medical Gastroenterology Hospital/institute MUST have <ul style="list-style-type: none"> • 3 Dedicated endoscopic suites • Upper GI Scopes-3 • Colonoscope -3 • Dudenoscope -2
vi.	Medical Oncology	20 beds in the department. At least 30% should be General beds
vii.	Nephrology	20 beds in the department. At least 30% should be General beds
viii.	Neuro Surgery (Stand-alone Oncology centres/hospital are not eligible to apply for DrNB Neurosurgery.)	20 beds in the department. At least 30% should be General beds
ix.	Paediatric Cardiology	20 beds in the department. At least 30% should be General beds
x.	Neurology	20 beds in the department. At least 30% should be General beds

S. No.	Departments	Minimum Beds in the applicant department and other infrastructural requirements
xi.	Paediatric Neurology	<p>Should have DNB/MD (Paediatrics) running in the applicant hospital.</p> <p>10 beds earmarked for Paediatric Neurology, in house PICU facility is mandatory.</p> <p>Neurophysiology Procedures (per year): EEG: 800 NCV/EMG: 80 BERA/VEP: 80</p> <p>The applicant hospital should have following equipment in house with standard equipment specifications and quality:</p> <ul style="list-style-type: none"> • EEG • Video EEG • NCV • EMG • BERA <p>Portable EEG</p>
xii.	Paediatric Surgery	<p>20 beds in the department. At least 30% should be General beds</p>
xiii.	Plastic & Reconstructive Surgery	<p>20 beds in the department. At least 30% should be General beds</p>
xiv.	Surgical Gastroenterology	<p>20 beds in the department. At least 30% should be General beds</p>
xv.	Surgical Oncology	<p>20 beds in the department. At least 30% should be General beds</p>
xvi.	Thoracic Surgery	<p>20 beds in the department. At least 30% should be General beds</p>
xvii.	Urology	<p>20 beds in the department. At least 30% should be General beds</p>
xviii.	Vascular Surgery	<p>20 beds in the department. At least 30% should be General beds</p>

S. No.	Departments	Minimum Beds in the applicant department and other infrastructural requirements
xix.	Critical Care Medicine	10 ICU Beds
xx.	Gynaecological Oncology	<p>Dedicated 15 bedded Gynaecological Oncology division in the applicant hospital. At least 30% should be General beds.</p> <p>The applicant hospital should preferably have the following departments In-house (In case of non-availability, MoU with a recognized center shall be required):</p> <ul style="list-style-type: none"> • Medical Oncology • Radiation Oncology • Surgical & Cyto-Pathology and Radiology
xxi.	Interventional Radiology	<p>Hospital/Institute should have dedicated Interventional Radiology facilities having following equipment under one roof / one campus:</p> <ul style="list-style-type: none"> • CT capable of CT angiography (16 slice or above) • MRI 1.5 T or better • Advanced Colour Doppler • Digital Subtraction Angiography (Single or Bi-plane) with C Arm.
xxii.	Neonatology	10 NICU Beds
xxiii.	Neuro Anaesthesia	10 Neuro ICU beds
xxiv.	Paediatric Critical Care	10 PICU Beds
xxv.	Clinical Immunology and Rheumatology	Primarily day Care/Consultation based Specialty;
xxvi.	Endocrinology	

S. No.	Departments	Minimum Beds in the applicant department and other infrastructural requirements
xxvii.	Medical Genetics	Bed requirement is work load related; Department should have minimum prescribed patient load However, the applicant hospital has to be 100 bedded
xxviii.	Infectious Disease	20 beds in the department. At least 30% should be General beds
xxix.	Cardio Vascular & Thoracic Surgery (Direct 6 Years Course)	20 beds in each specialty At least 30% should be General beds
xxx.	Neuro Surgery (Direct 6 Years Course)	
xxxi.	Paediatric Surgery (Direct 6 Years Course)	
xxxii.	Plastic & Reconstructive Surgery (Direct 6 Years Course)	

Fellowship (FNB) Courses

TABLE-8

Fellowship courses are sub-specialty skill-based programme wherein requirement of beds & IPD services can be part and parcel of the main clinical department;

The hospital should have minimum beds in respective broad/super specialty department and required case load and spectrum of diagnosis in respective sub-specialty.

S. No.	Sub-Specialty	Minimum Beds in the applicant department and other infrastructural requirements
i.	Addiction Psychiatry	The Department must have at least 30 beds in General Psychiatry and 15 beds should be dedicated to Addiction Psychiatry.
ii.	Andrology	Hospital should have at least 2 beds in Andrology.

S. No.	Sub-Specialty	Minimum Beds in the applicant department and other infrastructural requirements
iii.	Arthroplasty	The hospital should have minimum beds in respective broad/super specialty department and required case load and spectrum of diagnosis in respective sub-specialty.
iv.	Bariatric Surgery	<ul style="list-style-type: none"> • At least 100 Beds Centre with minimum of 5 beds dedicated to Bariatric Patients for multi-speciality hospitals • Facility of HDU/ICU • Facilities for Endoscopy and CT Scan • Core Team including Bariatric Dietitian, Program Coordinator and Psychologist
v.	Breast Imaging	<p>Hospital/Institute should have dedicated breast imaging facilities having following equipment under one roof / one campus:</p> <ul style="list-style-type: none"> • Digital mammography • High Resolution Ultrasound with Elastography • One breast Imaging MRI Coil • Breast tomosynthesis (Twinning arrangement with other medical Institution/ Hospital) • Stereotactic Biopsy • Vacuum assisted breast biopsy device
vi.	Cardiac Electrophysiology	<p>The applicant hospital must have the following Facilities (In- house):</p> <ul style="list-style-type: none"> • Electrophysiology system (minimum 64 channels), recording, stimulation and ablation system • 3-Dimensional Electroanatomical mapping system • 24hrs Holter facility and assessment

S. No.	Sub-Specialty	Minimum Beds in the applicant department and other infrastructural requirements
vii.	Child and Adolescent Psychiatry	<p>The applicant hospital must have the following Facilities (In- house):</p> <ul style="list-style-type: none"> • Psychological testing services especially for Intelligence, Autism, ADHD and Specific Learning Disorder. • Play therapy facility • Separate Inpatient area for children and adolescents • Dedicated Child and Adolescent Clinics • Department of Paediatrics. (In case of stand-alone psychiatric centres, a Department of Paediatrics must be identified in a nearby hospital.
viii.	Colorectal Surgery	<ul style="list-style-type: none"> • At least 12 beds dedicated to colorectal surgery • 2 Major & 1 Minor OT.

<p>ix.</p>	<p>Fetal Radiology</p>	<ul style="list-style-type: none"> • Hospital should have at least 30 beds for Obstetrics & Gynecology. • Clinical units of Fetal Medicine/ Maternal Fetal Medicine should be an integral part of the hospital. • The Clinical Genetics, Laboratory Genetics and IVF units should be part of the hospital. If not available in the hospital, then the hospital should have a MOU with other institutions for training of fellows. <p>Essential Equipments:</p> <ul style="list-style-type: none"> • Ultrasound Scanners: three in numbers; one high end and two medium end scanners. • High end machine (one in number) – should be equipped with Colour Doppler, 3D, 4D, 5D, Shear wave elastography, Contrast sonography, STIC, Volume imaging, Panoramic imaging, Multiplanar reconstruction, Fusion imaging, Lumiflow, Microvascular flow. Biopsy guides, Footswitch Controls, Reporting Software, Multiple port connectors. Following probes should be available with the scanner: <ul style="list-style-type: none"> ○ Low frequency convex ○ High frequency convex ○ Low frequency linear ○ High frequency linear ○ Endovaginal 2D ○ Endovaginal 3 D ○ Volume 3D probe • Mid end machine (Two in Number) - should be equipped with Colour Doppler, 3D, 4D, STIC, Volume imaging, Panoramic imaging, Multiplanar reconstruction. Biopsy guides. Following probes should be available with the scanner: <ul style="list-style-type: none"> ○ Low frequency convex ○ High frequency linear ○ Endovaginal 3D
------------	-------------------------------	--

S. No.	Sub-Specialty	Minimum Beds in the applicant department and other infrastructural requirements
		<ul style="list-style-type: none"> ○ Volume 3D ● The ultrasound room used for intervention procedures should have all the emergency care equipment as specified in the PCPNDT Act. ● MRI- 1.5 tesla/ 3.0 tesla, capable of doing fetal MRI. If MRI is not available in the hospital, then the hospital should have a MOU with other institutions for training of fellows. <p>Necessary equipment for amniocentesis, chorion villus biopsy, etc should be available in the hospital.</p>
x.	Hand & Micro Surgery	The hospital should have minimum beds in respective broad/super specialty department and required case load and spectrum of diagnosis in respective sub-specialty.
xi.	Head & Neck Oncology	<p>The hospital must have following departments In-house:</p> <ul style="list-style-type: none"> ● Surgical Oncology ● Medical Oncology ● Radiation Oncology ● Radiology ● Pathology
xii.	Interventional Cardiology	The hospital should have minimum beds in respective broad/super specialty department and required case load and spectrum of diagnosis in respective sub-specialty.
xiii.	Liver Transplantation	<p>The hospital should have minimum beds in respective broad/super specialty department and required case load and spectrum of diagnosis in respective sub-specialty.</p> <ul style="list-style-type: none"> ● The department should be conducting Liver Transplants for the last 02 years; ● Minimum of 50 liver transplants should be performed in a year by the applicant department.

S. No.	Sub-Specialty	Minimum Beds in the applicant department and other infrastructural requirements
xiv.	Maternal & Foetal Medicine (Previously High Risk Pregnancy & Perinatology)	The hospital should have minimum beds in respective broad/super specialty department and required case load and spectrum of diagnosis in respective sub-specialty.
xv.	Minimal Access Surgery	The hospital should have minimum beds in respective broad/super specialty department and required case load and spectrum of diagnosis in respective sub-specialty.
xvi.	Minimal Access Urology	<p>Minimum 20 beds in the department of Urology</p> <p>Instruments:</p> <ul style="list-style-type: none"> • Basic Laparoscopy set including of High definition 2D/3D/4K camera head with monitor, CO₂ insufflator, Light source, energy device for laparoscopy, suction, 0 degree as well as 30 degree 5 mm and 10 mm telescope. • All basic laparoscopy instruments (Maryland, bowel grasper, Allis forceps, Babcock, Needle Driver, Clip Applicators, Right Angle, Lap Satinsky etc.) <p style="text-align: center;">And / Or</p> <p>Any Functional Robotic set with all the required instruments</p>
xvii.	Minimally Invasive Gynaecologic Surgery	The hospital should have minimum beds in respective broad/super specialty department and required case load and spectrum of diagnosis in respective sub-specialty.

S. No.	Sub-Specialty	Minimum Beds in the applicant department and other infrastructural requirements
xviii.	Musculoskeletal Radiology (MSK Radiology)	<p>The Radiology department should be an integral part of the hospital with following equipment under one roof / one campus:</p> <p>Essential Equipments:</p> <ul style="list-style-type: none"> • Digital Radiography (static) • Fluoroscopy machine (static or mobile C-arm) • Ultrasound machine with color and spectral doppler capability • Multidetector CT machine • MRI equipment <p>Dual-Energy X-Ray Absorptiometry (DEXA) bone densitometry unit.</p>
xix.	Neurovascular Intervention	<p>A dedicated division of Neurovascular Interventions should be there in the applicant hospital.</p> <p>The applicant hospital should have an in-house Neurology, Neurosurgery and Neuroradiology set up.</p> <p>The requirement of beds can be part & parcel of the main clinical department. The hospital should have minimum beds in parent super-specialty department (Neurology/ Neurosurgery) with minimum sub-specialty case load & spectrum of diagnosis as mentioned under patient load.</p> <p>The department should have Neurovascular Intervention facilities having following equipment:</p> <ul style="list-style-type: none"> • Cath lab with Digital Subtraction Angiography (Single or Bi-plane) with roadmap • Multi-slice CT • At least 1.5 T MRI • USG with Colour Doppler • Sophisticated Anaesthesia module with monitoring

S. No.	Sub-Specialty	Minimum Beds in the applicant department and other infrastructural requirements
xx.	Onco-Anaesthesia	<ul style="list-style-type: none"> • The Hospital must have a Well –Organized “Surgical Oncology Departments” functioning for the past 5 years • Beds dedicated for Oncology/ Onco surgery: Minimum 100 beds. Post-operative: Well-equipped post anaesthesia care unit and ICU facilities with minimum of 6 beds.
xxi.	Paediatric Anaesthesia	The following departments must be there in the hospital: <ul style="list-style-type: none"> • Paediatric Surgery • Paediatric Medicine • Neonatology 20 bedded PICU and 10 bedded NICU

<p>xxii.</p>	<p>Paediatric Emergency Medicine</p>	<p>The following departments must be there in the hospital:</p> <ul style="list-style-type: none"> • Pediatric Emergency with 5 resuscitation trolleys • Department of Pediatrics with minimum 50 Beds • Pediatric ICU with 5 Beds with at least 2 should be ventilator beds and all should have required facilities for bedside monitoring of critical patients • Neonatology 10 bedded NICU with at least 2 ventilator beds • Minimum bed requirement in the Pediatric Emergency department should be 5 beds, of which, there should be 1 triage bed, 1 bed with all resuscitative facilities for 'red' category, 3 beds for 'yellow'/'green' category patients. • All 5 beds should have bed-side monitoring facilities. • Ultrasound machine and CT scan to be available for round-the-clock in the hospital. Round-the-clock availability of x-ray, arterial blood gas and basic blood investigations. • 24 hr Ambulance services adequately equipped for onsite resuscitation and transfer of critically injured/ill patients with trained manpower or tie up with a medical transport team to do the same. • 24 hr adequately equipped in-house blood storage facility; Hospitals wherein component preparation facility is not available in-house, a tie up with nearby
--------------	---	--

S. No.	Sub-Specialty	Minimum Beds in the applicant department and other infrastructural requirements
		blood bank shall be required
xxiii.	Paediatric Gastroenterology	The hospital should have minimum beds in respective broad/super specialty department and required case load and spectrum of diagnosis in respective sub-specialty.
xxiv.	Paediatric Hemaeto-Oncology	The hospital should have minimum beds in respective broad/super specialty department and required case load and spectrum of diagnosis in respective sub-specialty.
xxv.	Paediatric Nephrology	The hospital should have minimum beds in respective broad/super specialty department and required case load and spectrum of diagnosis in respective sub-specialty.
xxvi.	Paediatric Orthopaedics	The following departments must be there in the hospital: <ol style="list-style-type: none"> 1. Paediatric Medicine with PICU & NICU facilities. 2. 20 beds exclusively for Paediatric Orthopaedics
xxvii.	Paediatric Radiology	There is no minimum bed requirement in the parent department. The Radiology department should be an integral part of the hospital with following equipment under one roof / one campus: Essential Equipments: MRI, CT, Ultrasound, Fluoroscopy & X-Rays
xxviii.	Paediatric Urology	<ul style="list-style-type: none"> • Hospital should have access to radiographic, ultrasonographic, CT – Scan, MRI, nuclear medicine and urodynamic equipment. • The institution should have a 24 hour operating theatre.

S. No.	Sub-Specialty	Minimum Beds in the applicant department and other infrastructural requirements
xxix.	Pain Medicine	10 Beds; Recovery Room/PACU Beds/Special Ward/ General Ward /Post Procedure Room Beds can be included. <ul style="list-style-type: none"> • Dedicated Pain Clinic OPD preferably in Main OPD Complex of Hospital (Daily) • Fully equipped Pain OT <ul style="list-style-type: none"> ○ Fluoroscope ○ Radio Frequency Ablation Machine ○ Ultrasound Machine ○ Peripheral Nerve Stimulator ○ Platelet Rich Plasma (PRP) Centrifugation Machine ○ Vital Sign Monitor ○ Resuscitation Cart ○ Anaesthesia Machine • TENS, LASER • Post Procedure room • Pain Charts, Bone models
xxx.	Paediatric Cardio Thoracic and Vascular Surgery	The hospital should have minimum beds in respective broad/super specialty department and required case load and spectrum of diagnosis in respective sub-specialty.
xxxi.	Paediatric Endocrinology	<ul style="list-style-type: none"> • In-house NICU, PICU, Pediatric emergency (24x7) and ward facility for evaluation and management of Pediatric Endocrine Disorders.
xxxii.	Renal Transplant	The hospital should have the following facilities: <ul style="list-style-type: none"> • Must have Nephrology unit. • Must have HD unit with 10 HD machines. • Centre should be recognized for deceased donor organ removal • Facilities of in house CT Angiography, Doppler study should be there. • Must have in house Pathology lab with facility for doing Immunology related tests. Must have active transplant coordinator and counselling department taking care of all legalities and the applicant hospital should have its transplant ethics committee.

S. No.	Sub-Specialty	Minimum Beds in the applicant department and other infrastructural requirements
xxxiii.	Reproductive Medicine	<p>Applicant hospital should be having a minimum of 10 beds</p> <p>1. Equipment – The minimum equipment required are:</p> <ol style="list-style-type: none"> a. Microscope; b. Incubator (minimum 02 in number); c. Laminar Airflow; d. Sperm counting Chambers; e. Centrifuge; f. Refrigerator; g. Equipment for cryopreservation; h. Ovum Aspiration Pump; i. USG machine with transvaginal probe and needle guard; j. Test tube warmer and k. Anesthesia resuscitation trolley. l. Micro Manipulator
xxxiv.	Sleep Medicine	<ol style="list-style-type: none"> 1. 20 bedded Pulmonary Medicine department with sleep laboratory 2. The following departments and facilities must be there in the hospital: <ol style="list-style-type: none"> i. Psychiatry ii. Neurology iii. Sleep laboratory with at least one level 1 Polysomnography
xxxv.	Spine Surgery	<p>The hospital should have minimum beds in respective broad/super specialty department and required case load and spectrum of diagnosis in respective sub-specialty.</p>
xxxvi.	Sports Medicine	<p>The hospital should have minimum beds in respective broad/super specialty department and required case load and spectrum of diagnosis in respective sub-specialty.</p>

S. No.	Sub-Specialty	Minimum Beds in the applicant department and other infrastructural requirements
xxxvii.	Stroke Medicine	<p>The applicant hospital must have the following Facilities (In- house):</p> <ul style="list-style-type: none"> • Advanced CT and MRI imaging including perfusion studies • Neuro intervention lab
xxxviii.	Transplant Anaesthesia	<p>The hospital must have following departments (in-house):</p> <ul style="list-style-type: none"> • Liver Transplant • Renal Transplant <p>Centres that may not have adequate numbers for liver transplant should send their candidate for training at other centres having at least 25 Liver Transplants per year. There is a need to have an MOU signed between the applicant hospital and the hospital where the trainees will be sent for hands on exposure in liver transplant</p>

S. No.	Sub-Specialty	Minimum Beds in the applicant department and other infrastructural requirements
xxxix.	Trauma & Acute Care Surgery (Previously Trauma Care)	i. Hospital should be multi-specialty hospital with 250 IPD beds ii. Number of resuscitation bay in emergency department (ED) - Minimum 5 beds for surgical emergencies. iii. Minor OT - One iv. Plaster room - One v. Number of beds for In-patient department (IPD) - Minimum 25 beds for surgical emergencies (traumatic and non-traumatic). vi. Number of ICU beds - Minimum 05 beds for surgical emergencies (traumatic and non-traumatic) vii. Operation theatres (OT) - Minimum two with facility for general Anaesthesia, out of which one should be dedicated and available 24 x 7 for surgical emergencies viii. Essential facilities - <ul style="list-style-type: none"> • In-house 24x 7 multi-slice Computed Tomography Scan. • Portable X ray machine • Portable Ultrasound machine with Color Doppler • Availability of 24 x 7 Blood bank/Blood storage facility • Laboratory facility 24 x 7
xl.	Trauma Anaesthesia & Critical Care	100 Beds dedicated for Trauma surgery. Well-equipped post Anaesthesia care unit and ICU facilities
xli.	Vitreous Retinal Surgery	The hospital should have minimum beds in respective broad/super specialty department and required case load and spectrum of diagnosis in respective sub-specialty.

B. Faculty in the applicant department/specialty

- 4.15. The applicant hospital should have minimum required faculty in each applicant department.
- 4.16. The applicant department should have at least **01 Senior Consultant & 01 Senior/ Junior Consultant** working together for being considered eligible for DNB/DrNB/ FNB courses.
- 4.17. The qualification of the faculty should be a recognized qualification as per the provisions of IMC (repealed) Act / NMC Act.
- 4.18. The number of seats granted in each specialty [Post MBBS seats (Primary seats) & Post Diploma seats (Secondary seats)] shall be in accordance with the case load, infrastructure available and number of Senior Consultants and Junior Consultants in the applicant department.
- 4.19. **PG Teacher:** All consultants in the department who qualify to be a Senior Consultant as per NBEMS criteria shall qualify as PG teacher for NBEMS courses.
- 4.20. The minimum eligible qualifications & required minimum experience in the specialty to qualify as Senior or Junior consultants for different NBEMS courses are indicated as under:
- 4.21. **Overlapping Faculty:** Faculty considered for DNB/DrNB course can also be considered for 01 Fellowship Course subject to fulfilment of the eligibility criteria. However, the same faculty cannot be considered for 02 Fellowship Courses. Faculty with Super Specialty qualification in medical and surgical disciplines will be considered only as an adjunct faculty for the concerned Broad Specialty i.e. General Medicine and General Surgery respectively.

Eligibility Criteria for Faculty- Qualification & Experience

(Broad Specialty (DNB) Courses)

TABLE-9

S. No.	Specialty	Minimum Eligible Qualification(s)	Minimum Experience after PG in Minimum Eligible Qualification	
			Senior Consultant	Junior Consultant
i.	Anaesthesiology	DNB/MD (Anaesthesiology) OR equivalent*	8 Years	5 Years

S. No.	Specialty	Minimum Eligible Qualification(s)	Minimum Experience after PG in Minimum Eligible Qualification	
			Senior Consultant	Junior Consultant
ii.	Anatomy	DNB/MD/MS (Anatomy) OR equivalent*	8 Years	5 Years
iii.	Biochemistry	DNB/MD (Biochemistry) OR equivalent*	8 Years	5 Years
iv.	Community Medicine	DNB/MD (Social & Preventive Medicine / Community Medicine) OR equivalent*	8 Years	5 Years
v.	Dermatology, Venereology and Leprosy	DNB/MD (Dermatology, Venereology & Leprosy) OR equivalent*	8 Years	5 Years
vi.	Emergency Medicine	DNB/MD (Emergency Medicine) OR equivalent*	5 Years of experience after DNB/MD (Emergency Medicine)	2 Years of experience after DNB/MD (Emergency Medicine)
		OR		
		DNB/MD/MS (or equivalent* qualification) in General Medicine/ Anaesthesiology /General Surgery.	8 Years of experience in Emergency Medicine/ General Medicine/ Anaesthesiology /General Surgery	5 Years of experience in Emergency Medicine / General Medicine/ Anaesthesiology /General Surgery
vii.	Family Medicine Minimum four (04) Faculties (one faculty each from the specialty of	DNB/MD (Family Medicine) OR equivalent*	5 Years of experience after DNB/MD (Family Medicine)	2 Years of experience after DNB/MD (Family Medicine)
		OR

*Where an equivalent qualification in the subject concerned is provided for a faculty, the same shall be deliberated by the NBEMS on a case-to-case basis for being considered as a faculty in the applicant department.

4.22. In case of nascent specialties, NBEMS may consider a faculty with recognized PG degree qualification in allied/parent specialties with adequate experience in the area of applicant specialty in a recognized department or may relax the minimum experience required. However, the exclusive experience of faculty in applicant specialty should be substantiated with work experience certificates and research publications.

4.23. **Research Experience:** The faculty in the applicant department (collectively) should have a minimum of 5 research activities to their credit. These research activities include publications such as research papers, review articles, case reports, abstracts etc.; presentations such as papers/posters presented in conferences etc.

4.24. **Senior Residents:** 2 (two) Senior Residents are *desirable* in the department. They must possess recognized Degree/Diploma qualification in the specialty.

- **In Broad specialties disciplines**, the degree/diploma should not have been awarded more than 60 months earlier from the date of filing the application. Sr. Residents with diploma qualification must possess minimum of 2 years of Post diploma experience in the specialty concerned.
- **In Super specialty disciplines**, Senior residents with respective broad specialty qualification and above stated experience shall be acceptable. Faculty with DM/MCh/DrNB (SS) qualification shall be accepted as Senior Residents till such time they qualify to become Junior Consultants.

4.25. Sr. Residents pursuing any academic course in the department (DrNB Super Specialty/DM/MCh/Fellowship/any other) after qualifying PG Degree qualification shall be considered as *Academic Sr. Resident*. Those who are not pursuing any such academic courses shall be considered as *Non Academic Senior Residents*.

- 4.26. Proposed faculty in the applicant department shall be required to submit a “Faculty declaration form” online in the prescribed format while submitting online application to NBEMS. The format of the faculty declaration form can be obtained from <https://accr.natboard.edu.in> under quick link “Download”.
- 4.27. The applicant hospital shall be required to verify the correctness and veracity of each content of faculty declaration forms and endorse the same as true and correct. The applicant hospital shall be responsible besides the faculty himself/herself for any misdeclaration or misstatement, in the event of declaration turning out to be either incorrect or any part of this declaration subsequently turning out to be incorrect or false.
- 4.28. The faculties of General Medicine, General Surgery, Paediatrics or Obstetrics & Gynaecology counted for the programme of DNB Family Medicine shall be allowed to be counted as a faculty in their respective specialties as well.
- 4.29. **Full time status of Faculty:** As per NBEMS criteria, the applicant hospital shall be the principal place of practice of the consultant who is proposed as faculty for the course. Faculty should declare to work full time (6 – 8 hour/day) in the applicant hospital and the same has to be confirmed in the faculty declaration form.
- 4.30. Part time and visiting consultant shall not be considered as a faculty for NBEMS courses and shall not be counted towards minimum required faculty for the purpose of accreditation of the applicant department.
- 4.31. **A)** NBEMS shall verify the full-time status of faculty in the hospital concerned through a set of documents including but not limited to, declaration form of the faculty, Form-16/16A, Form-26AS, Salary/Bank statements, HIS data or any other document (Bipartite agreement/Tripartite agreement) as deemed fit by NBEMS.
- B) Documents to be submitted:** The following documents have to be submitted by the applicant hospital in support of the proposed faculty being working full-time at the applicant hospital:
- i. **Form-16/16A** of the proposed faculty downloaded from TRACES website or provided by the employer – Mandatory to be submitted
 - ii. **Form-26AS** of the proposed faculty downloaded from TRACES website – Optional
 - iii. **Bipartite Agreement and affidavits** – In case the proposed faculty is not willing to submit Form-26AS, the applicant hospital will be required to submit to NBEMS a Bipartite Agreement and affidavits as a proof of working of the proposed faculty on full-time basis in the applicant hospital. A separate Bipartite Agreement and affidavits have to be submitted for each proposed faculty. The Bipartite

Agreement and the affidavits can be seen at <https://accr.natboard.edu.in/> under the link Downloads.

[Click here to view the Bipartite Agreement and affidavits](#)

iv. **Tripartite Agreement and affidavits** - In case of the applicant hospital having faculty members who are getting their Form-16/16A from parent office of the applicant hospital/ outsourcing agency (engaged by the applicant hospital), the applicant hospital will be required to submit to NBEMS a Tripartite Agreement and affidavits as a proof of working of the proposed faculty on full-time basis in the applicant hospital. The Tripartite Agreement and the affidavits can be seen at <https://accr.natboard.edu.in/> under the link Downloads.

Such faculty members are not required to submit the Bipartite Agreement and affidavits.

[Click here to view the Tripartite Agreement and affidavits](#)

- a. *For faculty working in the applicant hospital on outsourcing basis*
- b. *For faculty whose Form-16 is generated by the parent office, the address of parent office being different from the address of the applicant hospital*

Faculty will not be considered for the purpose of accreditation in case the above documents are not submitted by the applicant hospital to NBEMS.

4.32. Thesis Guide/Co-Guide: Thesis Guides/Co-Guides can be assigned for NBEMS trainees only from the eligible and approved faculty for the courses as mentioned in “Accreditation Agreement”.

- For Broad specialties which have Post Diploma 2-year DNB courses (refer page 5), a Senior Consultant can guide a maximum of two DNB trainees: one Post MBBS trainee & one Post Diploma trainee.
- For Broad specialties which do not have any Post Diploma 2-year DNB courses, a Senior consultant can guide a maximum of two DNB trainees per year.
- Junior Consultants can only co-guide a DNB trainee in the applicant department. Senior and Junior Consultants of other departments can only be co-guides to DNB trainees. Junior Consultants, Senior Residents and Adjunct/Part time/Visiting Consultants cannot be assigned as thesis guides.

4.33. Changes in Faculty Status: The applicant department once accredited with NBEMS is required to maintain the minimum required staff position at all times. No changes in the faculty shall be made within the period of accreditation. However, under extreme circumstances if the Faculty/Guide present at the time of accreditation is to be replaced, the same has to be carried out within 3 months under intimation to the NBEMS.

- 4.34. In case of any change in faculty during the accredited period, it shall be required to induct only eligible faculty as a replacement of faculty who has left. Lack of faculty due to any reason would be communicated to NBEMS within 15 days. Failure to appoint alternative faculty shall lead to withdrawal of accreditation and /or relocation of the ongoing trainees. This situation would also 'red flag' the hospital/institute for further accreditations.
- 4.35. Newly introduced faculty in the accredited department shall be required to submit his/her declaration form in the prescribed format with supportive documents such as Additional Qualification Registration Certificate (AQRC), Form 26AS/Bipartite Agreement /Tripartite Agreement (para 3.30), letter of appointment issued by the accredited hospital and relieving letter from the previous employer.
- 4.36. The applicant hospital shall maintain details of its full-time faculty for NBEMS courses on its official website indicating their designations and time period of availability in the hospital.
- 4.37. The faculty status in the department shall be reviewed at the time of review conducted by NBEMS. The hospital shall be required to confirm availability of minimum required faculty for continuation of accreditation during the provisionally accredited period.
- 4.38. Each consultant who has been shown as faculty for NBEMS course will devote at least 10 hours per week for teaching/training in terms of case discussion, seminar, ward round, journal club etc. for NBEMS trainees. This is in addition to his/her assigned clinical & other hospital responsibilities.
- 4.39. The minimum teaching programme per week shall comprise of 5 hours of didactic teaching (Seminars, Journal Clubs, Lectures etc.) and 5 hours of clinical/bed side teaching.

C. Patient Load in the Applicant Department/Specialty

- 4.40. The applicant department should have minimum required patient load in OPD registrations and/or IPD admissions as tabulated below. The hospital shall be required to furnish the OPD & IPD patient load in the applicant department for last 02 years.
- 4.41. In surgical disciplines, details of surgical case load shall be required for last 02 years in terms of major and minor surgeries performed by the department. Spectrum of clinical/surgical diagnosis available in the department for last 02 years shall be required to be furnished in the application form as per prescribed formats.

4.42. NBEMS may verify the patient load data furnished in application submitted with supportive documents such as HIS records, OT registers etc.

General patients are those patients that shall be accessible at all times for supervised clinical work to NBEMS trainees. Data of General patients shall be accessible to NBEMS trainees for research purposes subject to applicable ethical guidelines and clearances from Institutional Ethics Committee & Institutional policies. The applicant department should have a minimum of 30% Patients under this category.

Minimum Patient Load Requirement for Broad Specialty Courses:

TABLE-12

S. No.	Departments	Minimum Patient Load per year in the concerned specialty /department
i.	Anaesthesiology	<ul style="list-style-type: none"> • The hospital should have a minimum of 1000 major surgeries per annum in total from all the surgical specialties for training of the students. • There should be a minimum of 100 surgeries per year in each of the core areas. • ENT department should have a minimum of 50 surgeries per annum. • It is desirable to perform 50 pain management procedures per year.
ii.	Anatomy	<ul style="list-style-type: none"> • Reference is made to optimal case load in clinical disciplines and labs/ associated facilities in Pre/Para clinical disciplines. • Departments should have adequate case load and case mix (spectrum of diagnosis) in all essential modalities to support PG teaching & training
iii.	Biochemistry	
iv.	Community Medicine	
v.	Forensic Medicine	
vi.	Hospital Administration	
vii.	Immunoematology and Blood Transfusion	
viii.	Microbiology	

S. No.	Departments	Minimum Patient Load per year in the concerned specialty /department
ix.	Nuclear Medicine	
x.	Pathology	
xi.	Pharmacology	
xii.	Physiology	
xiii.	Radio Diagnosis (Stand-alone Diagnostic centres are not eligible to apply for DNB Radio Diagnosis)	
xiv.	Dermatology, Venereology and Leprosy	The Annual Dermatology OPD attendance should be at least 20,000. 30% of the patient load should be "General". IPD: Primarily Day Care/ Consultation based Specialty; Department should have adequate spectrum of diagnosis to support PG teaching & training
xv.	Emergency Medicine	At least 8000 Emergency Room visits per year; Adequate case mix (spectrum of diagnosis) in the department
xvi.	Family Medicine	Total OPD: 10000; at least 3000 General Patients Total IPD: 2000; at least 600 General Patients (This is inclusive of OPD & IPD load in General Medicine, General Surgery, Paediatrics and Obstetrics & Gynecology)

S. No.	Departments	Minimum Patient Load per year in the concerned specialty /department
xvii.	General Surgery	Total OPD: 5000; at least 1500 General Patients Total IPD: 1000; at least 300 General Patients At least 300 major and 400 minor surgeries should have been performed by the department of General Surgery as per Annexure – CM – SURG (available at https://accr.natboard.edu.in/ under the link Downloads).
xviii.	General Medicine	Total OPD: 5000; at least 1500 General Patients Total IPD: 1000; at least 300 General Patients
xix.	Otorhinolaryngology (ENT)	
xx.	Paediatrics	
xxi.	Physical Medicine and Rehabilitation	
xxii.	Psychiatry	Total OPD: 5000; at least 1500 General Patients Total IPD: 300, atleast 100 General patients
xxiii.	Respiratory Medicine	Total OPD: 5000; at least 1500 General Patients Total IPD: 1000; at least 300 General Patients

<p>xxiv.</p>	<p>Obstetrics & Gynaecology</p>	<p>Total OPD: 5000; at least 1500 General Total IPD: 1000; at least 300 General</p> <ul style="list-style-type: none"> • A total of 1000 procedures (Major and Minor combined) per annum as per Annexure - CM – OBGY (available at https://accr.natboard.edu.in/ under the link Downloads.) performed by the department of Obstetrics & Gynaecology (OBGY) shall be considered optimal. • If the Obstetrical component is less than 600 procedures per annum, the trainees of that department shall undertake an externship to another recognized department of OBGY where Obstetrical component is surplus to support additional trainees. • Similarly, wherever the Gynaecological component is less than 400 procedures per annum, the trainees of that department shall undertake an externship to another recognized department of OBGY where Gynaecological component is surplus to support additional trainees. • Minimum Normal Vaginal Deliveries /LSCS/Gynae procedures/Cancer surgeries shall be 300/100/100/10 respectively per year. • The applicant departments having sufficient Obstetrics load but borderline/sub-optimal Gynae load or adequate Gynae load but borderline/sub-optimal Obstetric load can also apply for accreditation with NBEMS in Obstetrics & Gynaecology subject to submission of Memorandum of Understanding (MoU) with another hospital having adequate Obstetrics & Gynaecology case load. Such a hospital with which the applicant hospital is entering into MoU should be running DNB/MS Programme in Obstetrics & Gynaecology. The candidates will be sent for externship for a period of 06 months during the entire period of 03 years training. The format of MoU can be seen on the NBEMS website.

D. Grant of Seats

The number of seats granted/accredited in a particular applicant department shall be decided by NBEMS on the basis of fulfilment of the minimum accreditation criteria as indicated above and available faculty. The number of seats granted vis-à-vis available faculty is tabulated herein below:

4.43 For Broad specialty courses where Post Diploma DNB seats are also granted along with Post MBBS DNB seats, the grant of seats is tabulated herein below:

TABLE-15

No. of Sr. Consultants	No. of Jr. Consultants	Number of seats granted	
		Post MBBS 3 - years DNB	Post Diploma 2- years DNB
1	1	1	1
2	2	2	2
3	1	2	2
3	2	3	2
2	1	2	1
2	0	1	1

3	0	2	1
1	0	0	0

- i. Specialties in which 2 years Post MBBS Diploma courses are NOT being offered by NBEMS and where the Post Diploma DNB (Secondary) seats are also granted, the ratio of grant of Post MBBS (primary) and Post Diploma (secondary) seats would be 2:1 (i.e. 2 Primary & 1 Secondary seats). List of these specialties are as under:

1. Dermatology, Venereology and Leprosy
2. Nuclear Medicine
3. Orthopaedics
4. Pathology
5. Physical Medicine and Rehabilitation
6. Psychiatry
7. Radiation Oncology

(Diploma course in the above specialties was used to offer by the erstwhile Medical Counseling of India (MCI))

➤ **Illustrations for grant of seats under 2:1 ratio:**

Number of Total Seats	Post MBBS DNB (Primary) Seats	Post Diploma DNB Seats (Secondary)
2	1	1
3	2	1
4	3	1

- ii. Specialties in which 2 years Post MBBS Diploma courses are being offered by NBEMS and where the Post Diploma DNB (Secondary) seats are also granted, the ratio of grant of Post MBBS (primary) and Post Diploma (secondary) seats would be 1:1 (i.e. 1 Primary & 1 Secondary seats). List of these specialties are as under:

1. Anaesthesiology
2. Emergency Medicine
3. ENT
4. Family Medicine
5. Obstetrics & Gynaecology
6. Ophthalmology
7. Paediatrics
8. Radio Diagnosis
9. TB & Chest Diseases

The above changes will take effect only at the time of grant of fresh / renewal of accreditation and will not be considered for any ongoing accreditation.

4.44 For Super specialty courses, Fellowship courses and Broad specialty courses where there are no Post Diploma DNB seats, the grant of seats is tabulated herein below:

TABLE-16

No. of Sr. Consultants	No. of Jr. Consultants	Number of seats granted
1	1	2
2	2	4
2	1	3
2	0	2
3	0	3

1	0	0

E. Physical Facilities & Supportive Services

4.45 **Out Patient Department:** The applicant hospital should possess adequate space for:

- Registration of patients along with facilities for centralized & computerized record keeping with proper indexing (such as HIS data etc.)
- Adequate number of rooms for examining the patients in privacy.
- Case conference room/teaching room in OPD area

4.46 **In-Patient Department:** The hospital should possess adequate space for doctor's duty room with adequate facilities for toilet, adequate space for each bed and in between, for side laboratory, for clinical investigations and separate room for clinical conference (ward teaching) etc.

4.47 **Emergency Medical/ Critical Care:** The applicant hospital should have 24 hours emergency and critical care services having adequate number of beds with supportive facilities for resuscitation and good medical cover, including Emergency Surgery O.T., ICU etc.

4.48 **OT Complex:** Hospitals seeking accreditation with NBEMS in surgical specialties should have:

- Adequate number of operation theatres: Modular/ Major/Minor

- Essential Surgical & Anaesthesia equipment in OT, Post Op Care area and Intensive Care units
- Anesthesiologists both for the hospital service and training of candidates
- Other Allied Health/Para medical staff
- Intensive Care Unit for surgical emergencies/critical care of patients
- Post-operative ward/Recovery Area.
- Simulation/Skill Lab based hands on training provisions for training of DNB trainees

4.49 **Supportive Services:** The applicant hospital should have provisions for necessary supportive services for patient care as well as training of DNB & FNB trainees such as:

- Radiology & Essential Imaging modalities
- Clinical Biochemistry
- Clinical Haematology
- Clinical Microbiology
- Surgical Pathology/Histopathology, Cytology
- Blood Bank/Storage
- Dietetics department with qualified dietician
- CSSD
- Medical Record Department
- Any special diagnostic or therapeutic support service required for the applicant department

F. Teaching & Training Facilities

4.50 **Training in Basic Sciences:** The applicant hospital is required to make provisions for training & teaching of NBEMS trainees in applied basic sciences as relevant to the applicant specialty.

4.51 The applicant hospital is required to arrange appropriate number of lectures/demonstrations /group discussions/seminars in applied basic sciences as relevant to the applicant specialty.

4.52 As per NBEMS criteria the hospital should have one of the following provisions for applied basic science teaching & training:

- A team comprising of in-house faculty from relevant surgical disciplines (such as General Surgery, Obstetrics & Gynaecology, Orthopaedics, Surgical Super Specialty etc.) to provide applied anatomy teaching/training and faculty from relevant medical disciplines (such as General Medicine, Paediatrics, Medical Super specialties etc.) to provide applied physiology & pharmacology teaching/training to the NBEMS trainees as

applicable to the applicant specialty may be constituted. The biochemist, microbiologist & pathologist with PG degree medical qualifications in the hospital shall supplement the above team for applied basic science training.

‘OR’

- Specialists in basic sciences can visit the applicant hospital as adjunct/ guest faculty to impart the applied basic science teaching/ training to NBEMS trainees of the applicant hospital as relevant to the applicant specialty.

‘OR’

- A tie up with other institution (e.g. a medical or dental college/university/institute) may be undertaken to provide applied basic science teaching/training. A Memorandum of Understanding (MoU)/Permission letter from the Head of Institute of respective Medical or Dental College/University/Institute should be submitted confirming to the said arrangement.
- Details of identified in-house/visiting faculty specifying their PG degree qualifications for training in basic sciences specialties shall be required to be submitted as per prescribed format (**Annexure ‘Basic Sciences {BS}’**) available at <https://accr.natboard.edu.in/> under the link **Downloads**.

4.53 Accredited hospitals should also rotate their DNB, DrNB & FNB trainees (in addition to the routine duties) in their hospital's laboratory so as to enable them to gain knowledge in laboratory procedures related to Pathology, Histopathology, Biochemistry, Microbiology, Genetics etc.

4.54 Institutional Ethics Committee:

- All NBEMS accredited hospitals have to mandatorily have an Ethics Committee. The composition of Ethics Committee has to be in accordance with ‘New Drugs & Clinical Trials Rules, 2019’ notified by Ministry of Health & Family Welfare, Government of India. The Ethics Committee shall comprise of:
 - Chairperson
 - One - two persons from basic medical science area
 - One - two clinicians from various Institutes
 - One legal expert or retired judge
 - One social scientist/ representative of non-governmental voluntary agency
 - One philosopher/ ethicist/ theologian
 - One lay person from the community
 - Member Secretary
- As per MoHFW Notice No. U.11024/01/2018-HR(Part-2)/8015255 dated 12th September 2019, registration of Ethics Committee at institutes undertaking Biomedical and health research involving human participants with Department of Health &

Research (DHR), Ministry of Health & Welfare, Government of India is compulsory. **[Click here for aforesaid MoHFW notice](#)**

- All NBEMS accredited hospitals are required to register their Ethics Committee with Department of Health Research in the Ministry of HFW as indicated in the aforementioned notice. The accredited hospitals which do not have their own in-house Ethics Committee will have to enter into a MoU with another nearby institute having its own in-house Ethics Committee duly registered with DHR, MoHFW.
- The accredited hospitals shall have to inform their registration number at email accr@natboard.edu.in after obtaining the same from DHR, MoHFW. The hospital entering into an MoU will have to submit a copy of MoU at accr@natboard.edu.in.
- In case the hospital does not have an Ethics Committee as above, it would be mandatory for the hospital/institute to either have an Ethics Committee duly registered with Department of Health & Research, MoHFW or have a MoU with another hospital/institute having a duly registered Ethics Committee. This is to be done within 4 weeks of grant of accreditation to the concerned hospital failing which, the accreditation so granted shall be treated as withdrawn.
- The thesis protocols of DNB trainees shall be required to approved by the IEC.

4.55 **Library facilities:** The applicant department should have subscribed to at least 04 journals in the specialty applied for. Please refer respective curriculum available on NBEMS website for recommended readings. At least 02 of these 04 journals should be international. Electronic journals are acceptable and it is not mandatory to have print journals. Subscription of journals should be accessible to DNB, DrNB & FNB trainees.

- Whereas the requirement of minimum 04 journal subscription (at least 02 of which are international) is asked at the time of applying for fresh accreditation & followed up with mid cycle review, it **shall not be a limiting parameter** for deciding grant or non-grant of accreditation at the time of fresh accreditations.
- For departments which are seeking renewal of accreditation, it shall be an essential requirement to have valid suscriptions of minimum required journals as per NBEMS criteria.
- The recommended text books and reference books in the specialty applied for shall be required to be made available in the hospital library. NBEMS appointed assessor shall be verifying the subscription of journals and purchase of books against relevant

documents at the time of NBEMS assessment. Subscription of journals should be in the name of applicant hospital.

- 4.56 **Accommodation:** The Hospitals are encouraged to provide accommodation to NBEMS trainees as DNB/DrNB/FNB training is a residency based programme. A fee of Rs. 20,000/- per annum is collected by NBEMS from the trainees for accommodation to be provided by the accredited hospitals. This fee will be transferred to the accredited hospital by NBEMS as indicated in para 5.9. In case the hospitals are unable to provide accommodation to the trainee, the fee of Rs. 20,000/- per annum has to be refunded back to the trainee. Electricity and other consumables can be charged on actual basis by the hospital depending upon the institutional policy.

G. Requirement of Academic Department for the purpose of accreditation

It is desirable that the hospital seeking accreditation with NBEMS should have a defined academic department in the concerned specialty where the trainee will be trained. The academic department must have dedicated faculty, residents and staff with a defined location in the hospital and SOPs for discharge of their duties. The academic department shall comprise of:

- An academic office for the department
- Rooms for faculty
- Duty rooms for trainees
- Departmental library
- Specialty specific clinical areas

Academic department shall be inspected by the assessor at the time of physical inspection of the hospital.

5 Guidelines for Accredited Hospital

A. Guidelines for Rotational Posting/Externship of NBEMS trainees outside the Accredited Hospital

5.1 Rotational Postings of DNB & FNB trainees: DNB & FNB trainees can be rotated outside the applicant hospital as per guidelines tabulated below:

TABLE-17

Nature of Rotation	Purpose/Reason	Maximum Permissible period of rotation
<p>Rotation of trainees outside the applicant hospital (for exposure in areas which are deficient in-house) to another NBEMS/NMC recognized center</p> <p>A memorandum of understanding is required to be submitted as per prescribed Annexure - MoU (RP) available at https://accr.natboard.edu.in under the link Downloads</p>	<p>Hospital applying for Direct 6 year courses & not having DNB General Surgery in their own hospital are required to rotate its trainees for training in basic principles of surgery to a NBEMS / NMC recognized General Surgery department.</p>	9 months
	<p>The departments which do not have all the sub-specialities in-house can rotate its trainees to another NMC/NBEMS recognized centres. Rotation for core areas is not permissible.</p>	06 months
	<p>District Hospitals owned by State Government. need to rotate its trainees to Annexed Secondary nodes for exposure in deficient in-house departments (Annexure - Secondary node to be completed) available at https://accr.natboard.edu.in under the link Downloads</p>	01 year
<p>Externship for skill enhancement to centers of excellence; <i>Subject to availability and requirements</i></p>	<p>Direct 6 year course candidates in the 6th year of their training can be rotated to one of the centers of excellence for additional skill enhancement in specialized procedures</p>	Maximum 01 year at any NBEMS/NMC recognized centre of excellence

- 5.2 The externship of NBEMS trainees is not automatic. Proposal for externship should be included as a component of accreditation application for areas which are deficient in-house. NBEMS consider the proposal along with processing of accreditation application and consider grant of accreditation, including the proposed externship, on fulfilment of minimum requirement.
- 5.3 Rotation of the NBEMS trainees in hospitals/institutions that are not accredited with NBEMS or NMC or Government of India is not permitted. Rotation of NBEMS trainees in core areas of the concerned specialties is not permissible.
- 5.4 The rotation shall be a hands-on experience and not mere observer ship.
- 5.5 The parent hospital/institute have to monitor the training of its candidates. The thesis guide of the candidate shall continue to provide teaching and mentoring support during this period to the trainee.
- 5.6 The stipend of the candidate during this period of training outside the hospital / institute in another accredited institute shall be borne by the parent institute itself.
- 5.7 Both the partnering institutes shall mutually agree on the nature of responsibilities of the respective hospital / institute. A Memorandum of Understanding shall be signed between both the partnering hospitals/institutes as per prescribed **Annexure - MoU (RP)** available at <https://accr.natboard.edu.in/> under the link **Downloads**.

B. Fee to be paid by the NBEMS Trainee:

- 5.8 The Annual course fee prescribed by NBEMS for its courses and payable by the trainee is as follows:

TABLE-18

Head	Charges (in INR) per year
Tuition fees	75,000/-
Library fees	15,000/-
Annual Appraisal fees	15,000/-
Accommodation Charges	20,000/-

- Tuition fees: The tuition fees shall cover the cost incurred for accreditation, institutional DNB office, infrastructure and HR, training, teaching & research expenses, guest lecture, thesis support, administrative support expenses.

- Library fee: Library fees shall cover the provisions made by the hospital for subscription of journals and purchase of textbooks for DNB & FNB trainees.
- Annual appraisal fees: The appraisal fees shall cover the arrangements made for the purpose of appraisal of trainees and examiner remuneration.
- Accommodation charges: Electricity and other consumables can be charged on actual basis by the hospital depending upon institutional policy. The accommodation charges cannot be levied if the accredited hospital is not providing accommodation to DNB & FNB trainees.

5.9 The Annual Course fee shall be collected from a candidate as per the public notice issued by the NBEMS from time to time. The training charges and fee guidelines can be seen at **Annexure II or NBEMS website <https://natboard.edu.in> can be visited for latest public notice.**

5.10 The accredited hospital cannot charge any other fees like capitation fees, security deposit, security bond, and caution bond in the form of cash, fixed deposit, bank guarantee, and agreement by any instrument whatsoever. **However, Government Hospitals can implement a service bond, if applicable. It is mandatory for each Government Hospitals/concerned State Governments/Authority to provide the details of Service Bond to each concerned counseling conduct authority prior to start of every counseling in every admission session. Service Bond cannot be imposed / applied if it was not provided to the respective Counseling Conduct Authority prior to start of the counseling of a particular admission session.**

C. Stipend Guidelines

5.11 Paying stipend to the NBEMS trainees by the accredited hospitals/medical institutions is compulsory.

5.12 According to the NBEMS stipend policy, the hospital shall have to pay the NBEMS trainees a **BASIC** stipend in accordance to any of the following **applicable** categories:

i. Basic Stipend prescribed by the NBEMS:

➤ Post MBBS DNB (Broad Specialty) Courses:

Year of DNB Training	Stipend (in INR) per month
☑ First Year	35,000/-
☑ Second Year	37,000/-
☑ Third Year	39,000/-

➤ **Post Diploma DNB (Broad Specialty) Courses:**

Year of DNB Training	Stipend (in INR) per month
☑ First Year	37,000/-
☑ Second Year	39,000/-

➤ **2 Years Diploma (Post MBBS - Broad Specialty) Courses:**

Year of DNB Training	Stipend (in INR) per month
☑ First Year	35,000/-
☑ Second Year	37,000/-

➤ **DrNB (Super Specialty) Courses:**

Year of DrNB Training	Stipend (in INR) per month
☑ First Year	41,000/-
☑ Second Year	43,000/-
☑ Third Year	45,000/-

➤ **FNB Courses:**

Year of FNB Training	Stipend (in INR) per month
☑ First Year	41,000/-
☑ Second Year	43,000/-

ii. Stipend for NBEMS trainees in Private or State Government Hospitals/Medical Institutions:

The Private or State Government hospitals / medical institutions shall have to pay the NBEMS trainees a basic stipend as prescribed by the NBEMS at **Sr. no. (i)** above or basic stipend according to the respective State Government policy (**whichever is higher**):

The phrase “basic stipend according to state

Categories of States	Government policy” in NBEMS stipend guidelines should be interpreted as under:	
	For DNB / Diploma (Broad Specialty) Trainees	For DrNB (Super Specialty) & FNB Trainees
States where the stipend to MD/MS and DM/MCh trainees of State Government Medical Colleges is paid as a consolidated sum (without any break-up of basic pay and allowances)	The consolidated sum paid to MD/MS trainees of State Government Medical Colleges	The consolidated sum paid to DM/MCh trainees of State Government Medical Colleges
States where the stipend paid to MD/MS and DM/MCh trainees of State Government Medical Colleges is structured as a “Basic pay plus various allowances” and paid as per recommendations of 7 th CPC	Pay level 10 of 7 th CPC* {Cell 1, 2 and 3 of pay level 10 in pay matrix of 7 th CPC correspond to first, second and third year of training respectively}	Pay level 11 of 7 th CPC* {Cell 1, 2 and 3 of pay level 11 in pay matrix of 7 th CPC correspond to first, second and third year of training respectively}

** This does not include any kind of allowances as may be paid to MD/MS candidates in respective states. It is at liberty to the accredited hospitals to pay any allowances over and above the minimum sum prescribed by NBEMS.*

iii. Stipend for NBEMS trainees in Railway, ESIC, Central PSUs, Central Autonomous & Central Government Hospitals / Medical Institutions:

The Railway, ESIC, Central PSUs, Central Autonomous & Central Government hospitals / medical institutions shall have to pay the NBEMS trainees a basic stipend as prescribed by the NBEMS at **Sr. no. (i)** above or basic stipend mentioned as under (**whichever is higher**):

For DNB / Diploma (Broad Specialty) Trainees	For DrNB (Super Specialty) & FNB Trainees
Basic Stipend as prescribed by the NBEMS	Basic Stipend as prescribed by the NBEMS
OR	OR
The Basic Pay * paid to Non-academic Junior Residents in the concerned Central Govt. hospital	The Basic Pay * paid to Non-academic Senior Residents in the concerned Central Govt. hospital

<p>OR</p> <p>Pay level 10 of 7th CPC*</p> <p>{Cell 1, 2 and 3 of pay level 10 in pay matrix of 7th CPC correspond to first, second and third year of training respectively}</p> <p>(Equal basic pay * where IDA pattern is followed. IDA pay pattern is followed in PSUs)</p> <p>Whichever in above is higher</p>	<p>OR</p> <p>Pay level 11 of 7th CPC*</p> <p>{Cell 1, 2 and 3 of pay level 11 in pay matrix of 7th CPC correspond to first, second and third year of training respectively}</p> <p>(Equal basic pay * where IDA pattern is followed. IDA pay pattern is followed in PSUs)</p> <p>Whichever in above is higher</p>
--	--

* This does not include any kind of allowances as may be paid by the respective authority / hospitals. It is at liberty to the accredited hospitals to pay any allowances over and above the basic pay.

- 5.13 4th, 5th & 6th year trainees of a Direct 6 year NBEMS courses shall be paid stipend equal to 1st, 2nd & 3rd year trainees of a Super specialty course respectively provided that they clear the DNB Part-I Examination.
- 5.14 In order to maintain the parity to basic stipend guidelines, the rate of stipend needs to be periodically revised by the respective hospitals / medical institutions in accordance to the revision of stipend made by the respective State Governments (for Sr. no. ii) or by the Central Government/Authorities (for Sr. no. iii) from time to time.
- 5.15 NBEMS accredited hospitals are at liberty to pay NBEMS trainees a monthly stipend more than the prescribed stipend.
- 5.16 It is also desirable that the hospital provides accommodation to their trainees in addition to their stipend. However, the hospital shall not reduce the stipend of the trainees in lieu of providing accommodations.
- 5.17 Please keep visiting the NBEMS website <https://natboard.edu.in> for updates, if any, in NBEMS stipend guidelines.

D. Functionaries of the applicant hospital

- 5.18 The applicant hospital shall designate the following authorities from its staff for NBEMS courses:
- 5.19 **Head of the Institute/ Chief Medical Superintendent / CMO In-charge /Civil Surgeon/ Director:** Nodal officer for compliance of the rules and guidelines governing the programme as prescribed by NBEMS.
- 5.20 **NBEMS course Co-Ordinator (Single Point of Contact- SPoC):** He/She shall be the resource person either from the management or academic staff who shall communicate with NBEMS pertaining to smooth running of the NBEMS courses. The communication from NBEMS shall be sent to SPoC.
- 5.21 **Head of the Department / Senior Faculty/ In-charge:** Designated head of the applicant department/Senior faculty/ In-charge shall be responsible for all administrative formalities (such as verifying faculty declaration forms, signing applications/ various documents on behalf of the applicant department etc.) with NBEMS related to NBEMS courses. He/She shall be deciding the academic & duty/posting roster of NBEMS trainees.
- 5.22 It is mandatory that the applicant hospital nominates the aforesaid functionaries for the DNB course and indicate the same prominently with contact telephone no, mobile no and email-ID at the hospital's Notice Board for NBEMS trainees.

E. Grievance Redressal Committee (Accredited Hospital):

- 5.23 To address work-place based issues between the NBEMS trainees and NBEMS accredited hospitals, a Grievance Redressal Committee to be mandatorily constituted at each of the accredited hospital.
- 5.24 The accredited hospitals shall be required to constitute this committee as per composition tabulated below and widely notify the provisions made for addressing grievances of the NBEMS trainees.

TABLE-24

S.	Members	Role
1	Head of the Institute/ Chief Medical Superintendent / CMO In-charge /Civil Surgeon/ Director.	Chairman
2	Senior Faculty from Medical Specialty (In-House).	Member
3	Senior Faculty from Surgical Specialty (In-House).	Member
4	NBEMS programme Coordinator/SPOC of the hospital.	Member
5	Medical Superintendent/ HOD or equivalent in the hospital.	Member
6	Representative of NBEMS trainees of the hospital.	Member
7	External Medical Expert of the Rank of Professor of a Government Medical College (or equivalent) with Basic Science background.	Member

5.25 The **Terms of Reference** for this committee shall be as under:

- To attend to grievances of registered NBEMS trainees related to NBEMS training against the hospital.
- To attend to disciplinary issues related to NBEMS training against registered NBEMS trainees of the hospital.
- To submit an action taken report to NBEMS in matters which are escalated for redressal at NBEMS level.

5.26 Any grievance related to DNB/DrNB/FNB training shall be attended by this committee. Such matter shall not ordinarily be entertained by NBEMS, however, if the complainant is not satisfied with the decision of the hospital Grievance Redressal Committee, such matters shall be forwarded for further adjudication by NBEMS.

6 District DNB/DrNB Programme at State Government owned District/ General/ Civil hospitals

- 6.1 State Government willing to start NBEMS Programme at State Government owned District/ General/Civil hospitals shall have to identify potential hospitals which meet the minimum accreditation requirements as detailed under chapter 4. However, the applicant district hospital shall be able to utilize the facilities and infrastructure of annexed Secondary node for the purpose of training of NBEMS trainees at the applicant district hospital.
- 6.2 The Annexed Secondary node is a recognized Medical college offering PG courses/ NBEMS accredited Government hospital which can supplement the following requirements at the applicant district hospital:
- Basic Science teaching and training
 - Library Facilities
 - Research Support
 - Hands on training
 - Rotational Posting in Sub-specialty areas
- 6.3 The State Government will be required to ensure that an operational tie up with annexed secondary node, the facilities/ infrastructure of which are proposed to be utilized for training of NBEMS trainees at the applicant district hospital, continues uninterrupted for the period of accreditation.
- 6.4 No changes in the faculty should be made within the period of accreditation. However, under extreme circumstances if the Faculty/Guide present at the time of assessment at any of the applicant district hospital or adjunct PG teacher of annexed secondary node is to be replaced, the same has to be carried out within 3 months under intimation to NBEMS and minimum faculty status shall be maintained at all times during the period of accreditation.
- 6.5 Upto 50% NBEMS accredited DNB including direct 6 years course seats in the hospitals/medical institutions under the State government / Railway Board / ESI / PSUs / Municipal Corporation etc can be reserved for regular in-service candidates of the concerned State/Authority. The remaining 50% seats in these hospitals shall be open to be filled on All India basis. Statutory reservation (SC, ST, OBC, EWS & PWD candidates) on these seats shall be applicable in the Government hospitals. The concerned State

Government / Concerned Authority shall be required to maintain the reservation roster for State quota In-Service seats and for Central pool Post Diploma DNB (secondary) seats.

- 6.6 The State Government shall be required to ensure that NBEMS training at applicant district hospitals is carried out in accordance with prescribed NBEMS guidelines. The following undertakings have to be submitted along with the application form:
- (i) **An undertaking of the Principal Secretary (Health) to the State Government** confirming to the same shall be required to be submitted as per prescribed format along with Main application form.
 - (ii) An undertaking for tie up with Secondary Node shall be required to be submitted as per the prescribed **Annexure – Secondary Node** available at <https://accr.natboard.edu.in/> under the link Downloads. The tie up may be undertaken only for those areas which are deficient in-house.

7. Communication Protocol for Accreditation Purposes

7.1 The preferred mode for handling the accreditation related query shall be by email / Communication Web Portal. The queries may be sent to email ID accr@natboard.edu.in or on Communication Web Portal i.e. <https://exam.natboard.edu.in/communication.php?page=main>

(Please select 'Accreditation' as the department name while registering a query on Communication Web Portal)

7.2 Ordinarily, telephonic query will not be entertained; in case of the telephonic query the following information shall not be revealed under any circumstances:

- Internal movement of file
- Decision of NBEMS regarding grant/non-grant of accreditation
- Any claim/counter claim thereof
- Dates & venue of NBEMS meetings or name of the NBEMS officers or office bearers
- Any information which in the opinion of NBEMS cannot be revealed.

7.3 Through OAAP the hospital can access the following:

- Notices & Circulars issued by NBEMS
- Information bulletin
- Submission of Application form
- Status of applications
- Submit the application form for mid cycle review
- NBEMS accredited seats
- Approved faculty for the Accredited Specialty
- Addition/Change the SPOC/HOD/DNB coordinator
- Submit consent for Seat Matrix for the purpose of Counseling
- Download Accreditation related Annexures/Documents
- Update Hospital Profile
- View Grievance Committee Details
- Change Password

7.4 Communication shall only be processed if the same is issued by:

- Head of the Institute/ Chief Medical Superintendent / CMO In-charge /Civil Surgeon/ Director
- SPoC. In case of any changes in the SPoC, the hospital shall be required to first update the details of new SPoC on OAAP, before correspondence with new SPoC can be accepted by NBEMS.

7.5 Queries shall not be entertained from persons claiming themselves to be representative, associates or officiates of the applicant institute/ hospital.

7.6 Contact details:

Email ID:	accr@natboard.edu.in
Communication Web Portal	https://exam.natboard.edu.in/communication.php?page=main
Postal Address	National Board of Examinations in Medical Sciences, Medical Enclave, Ansari Nagar, New Delhi -110029

7.7 Queries related to registration of candidates and counselling related matters are to be sent at reg@natboard.edu.in and counseling@natboard.edu.in respectively.

8. Sponsored seats

8.1 NBEMS has introduced sponsored seats scheme. The eligibility criteria for grant of a sponsored seat is as follows:

- (i) The accredited department should have at least 3 non-sponsored seats in the concerned specialty.
- (ii) The hospital should have opted for / asked for inclusion of all the non-sponsored seats in the counseling of respective admission session in the concerned specialty.
- (iii) The department should have completed at least 01 year of accreditation.
- (iv) There should be an additional (surplus) faculty in the department duly approved by the NBEMS to accommodate the sponsored candidate.

8.2 The Sponsored seats are earmarked for regular In-Service doctors. The eligibility criteria for the candidates who will be allocated the sponsored seat is as under:

- (i) The candidate should be a NEET – PG (respective admission year) qualified for Sponsored Post MBBS DNB seats and should be PDCET (respective admission year) qualified for sponsored Post Diploma DNB seats.
- (ii) The candidate should be employed on regular basis with the sponsoring Government organization.
- (iii) The candidate shall have to obtain a study leave, No Objection Certificate and fulfil other requirements as per the terms and conditions of the organization where the candidate is employed.
- (iv) The stipend for entire period of DNB training shall be borne by the sponsoring Government organization.
- (v) The candidate shall be required to participate in the centralized merit-based counselling through which sponsored seats shall be allocated strictly in order of inter se merit.

8.3 The applicant hospitals will be granted sponsored seats in accordance with the criteria as indicated herein above and such hospitals shall be informed regarding grant of sponsored seat before the Centralized merit based counseling for particular admission session.

8.4 For sponsoring seat, the stipend shall be paid to the candidate by the sponsoring authority.

दिनांक: 17-10-2023

सूचना

कृपया ध्यान दें: एनबीईएमएस प्रत्यायित अस्पताल एवं समस्त एनबीईएमएस प्रशिक्षु

विषय: एनबीईएमएस प्रशिक्षुओं द्वारा वार्षिक पाठ्यक्रम शुल्क का भुगतान

1. एनबीईएमएस सार्वजनिक सूचना दिनांक: 22.12.2020, 15.01.2021, 15.02.2021, 19.08.2021 एवं 21.01.2022 के माध्यम से, एनबीईएमएस DNB/DrNB/FNB/डिप्लोमा पाठ्यक्रमों के सभी वर्तमान प्रशिक्षुओं (प्रशिक्षण के सभी वर्षों के) से पाठ्यक्रम शुल्क एकत्र कर रहा है। तत्पश्चात यह पाठ्यक्रम शुल्क दो छमाही किस्तों में संबंधित अस्पतालों को वापस स्थानांतरित कर दिया गया।
2. उपरोक्त सभी सार्वजनिक सूचनाओं के अधिकरण में, एनबीईएमएस 2024 प्रवेश सत्र से (DNB/DrNB/FNB/डिप्लोमा) पाठ्यक्रम के केवल पहले वर्ष के लिए पाठ्यक्रम शुल्क एकत्र करेगा। इस पाठ्यक्रम का शुल्क संग्रहण काउंसिलिंग के समय किया जाएगा। आवंटित अस्पताल में उम्मीदवार के ज्वाइन होने की पुष्टि होने के पश्चात् यह पाठ्यक्रम शुल्क एक ही किस्त में अस्पताल को वापस स्थानांतरित कर दिया जाएगा।
3. प्रशिक्षण के शेष वर्षों के लिए पाठ्यक्रम शुल्क का भुगतान उम्मीदवारों द्वारा सीधे अस्पताल को किया जाएगा, इसमें एनबीईएमएस की कोई भागीदारी नहीं होगी।
4. जो उम्मीदवार 2023 में एनबीईएमएस पाठ्यक्रमों में ज्वाइन हुए हैं, उन्हें शुल्क देय होने पर अपने दूसरे और तीसरे वर्ष के पाठ्यक्रम शुल्क का भुगतान सीधे अस्पताल में करना होगा।
5. इसी प्रकार, 2021 एवं 2022 प्रवेश सत्र के उम्मीदवारों को अपने तीसरे वर्ष के पाठ्यक्रम शुल्क का भुगतान सीधे अस्पताल में करना होगा, जब ऐसा शुल्क देय हो (द्वितीय वर्ष के पाठ्यक्रम शुल्क का भुगतान 2023 में एनबीईएमएस को किया जाना है)।
6. 2019 प्रवेश सत्र के लिए पोस्ट एमबीबीएस-सीधे 6-वर्षीय पाठ्यक्रम के उम्मीदवारों को अपने 5वें वर्ष का शुल्क एनबीईएमएस (2023 में देय) और 6वें वर्ष का शुल्क अपने प्रशिक्षण संस्थान को देना होगा। इसी प्रकार, 2020 प्रवेश सत्र के लिए पोस्ट एमबीबीएस-सीधे 6-वर्षीय पाठ्यक्रम के उम्मीदवारों को अपने चौथे वर्ष के पाठ्यक्रम शुल्क का भुगतान एनबीईएमएस (2023 में देय) और 5वें और 6वें वर्ष के पाठ्यक्रम शुल्क को अपने प्रशिक्षण संस्थान को करना होगा।

7. एनबीईएमएस प्रशिक्षु जो राज्य सरकार/सशस्त्र बल/रेलवे/पीएसयू और ईएसआईसी के विभिन्न एनबीईएमएस प्रत्यायित अस्पतालों में "इन-सर्विस" डॉक्टरों के लिए आरक्षित सीटों पर ज्वाइन हो गए हैं, उन्हें एनबीईएमएस को वार्षिक पाठ्यक्रम शुल्क का भुगतान करने की आवश्यकता नहीं है। इसके बजाय, इन अस्पतालों पर लागू नीति और नियमों के अनुसार वार्षिक पाठ्यक्रम शुल्क का भुगतान उनके संबंधित अस्पतालों को करना होगा।
8. यदि काउंसलिंग की अपग्रेडेशन प्रक्रिया के दौरान, उम्मीदवार को कोई अन्य सीट (एमडी/एमएस) मिलती है, लेकिन डीएनबी सीट काउंसलिंग के बाद के राउंड में शामिल हो जाती है, तो प्रथम वर्ष का पाठ्यक्रम शुल्क उम्मीदवार को वापस कर दिया जाएगा। ऐसे उम्मीदवारों की धनवापसी प्रक्रिया उस प्रवेश सत्र की काउंसलिंग पूरी होने के पश्चात् ही शुरू की जाएगी।
9. किसी भी प्रश्न के लिए, कृपया एनबीईएमएस वेबसाइट <https://natboard.edu.in> पर "Contact Us" मेनू के अंदर संचार वेब पोर्टल के माध्यम से या <https://exam.natboard.edu.in/communication.php?page=main> पर जाकर एनबीईएमएस को लिखें।

एनबीईएमएस

**NATIONAL BOARD OF EXAMINATIONS
IN MEDICAL SCIENCES
NEW DELHI**

Dated: 20-10-2023

NOTICE

Kind Attention: NBEMS Accredited Hospitals and all NBEMS trainees

Subject: Payment of Annual Course Fee by NBEMS Trainees

1. Vide NBEMS public notices dated 22.12.2020, 15.01.2021, 15.02.2021, 19.08.2021 and 21.01.2022, NBEMS has been collecting the course fee from all the ongoing trainees (of all years of training) of DNB/DrNB/FNB/Diploma courses. This course fee was thereafter transferred back to the respective hospitals in two six monthly instalments.
2. In supersession of all the above public notices, NBEMS from 2024 Admission Session will be collecting the course fee only for the first year of the course (DNB/DrNB/FNB/Diploma). This course fee collection will be done at the time of counseling. This course fee will be transferred back to the hospital in one single instalment after the joining of the candidate in the allotted hospital is confirmed.
3. The course fee for the remaining years of training will be paid by the candidates directly to the hospital with no involvement of NBEMS in the same.
4. Candidates who have joined NBEMS courses in 2023 are required to pay their second and third-year course fee directly to the hospital when such fee is payable.
5. Similarly, the candidates of 2021 and 2022 Admission Session are required to pay their 3rd year course fee directly to the hospital when such fee is payable (the 2nd year course fee is to be paid to NBEMS in 2023).
6. The candidates of Post MBBS-Direct 6-year course for 2019 Admission Session are required to pay their 5th year fee to NBEMS (payable in 2023) and 6th year fee to their training institute. Similarly, the candidates of Post MBBS-Direct 6-year course for 2020 Admission Session are required to pay their 4th year course fee to NBEMS (payable in 2023) and 5th and 6th year course fee to their training institute.
7. NBEMS trainees who have joined the seats reserved for "In-service" doctors in various NBEMS Accredited Hospitals of the State Government / Armed Forces / Railways / PSU and ESIC are not required to pay the Annual Course Fee to NBEMS. Instead, the Annual Course Fee has to be paid to their respective hospitals as per policy and rules as applicable to these hospitals.

8. First year course fee shall be refunded back to the candidate if during the upgradation process of counseling, the candidate gets some another seat (MD/MS) but DNB seat in included in subsequent rounds of Counseling. The Refund process of such candidates shall be started only after the completion of the Counseling of the concerned admission session.
9. For any queries, please write to NBEMS through the Communication Web Portal under the “Contact Us” menu on NBEMS website <https://natboard.edu.in> or by visiting <https://exam.natboard.edu.in/communication.php?page=main>.
